In the deepest and ugliest and most disgusting corners of the universal irrelevance of the

universe known as dipshit land savage land peasant land there’s a universal dipshit known as?

Guess what? I won’t tell you and best of all you don’t have to guess for yourself. Don’t bother.

The FCC Adds Kaspersky to Its List of National Security Threats (2022-03-30 07:35)

[1]

The FCC has recently [2]added Kaspersky products to it’s list of National Security Threats while

the company publicly [3]issued a statement claiming that the decision was made on political

grounds. The company also cited yet another [4]decision by the U.S DHS back in 2017 which basically forbids U.S based companies from doing business with the company.

In the past I've discussed how central antivirus software "phone-back" URL locations can be eas-

ily used by U.S and international Intelligence Agencies including rogue nation-state or targeted

threat actors for the purpose of hijacking them and feeding back malicious content similar to

the U.S Intelligence Community's Top Secret program called "[5]CAMBERDADA" which aims to

collect malicious software samples from antivirus vendors which also includes Kaspersky using

SIGINT by basically intercepting traffic courtesy of antivirus vendors and basically collecting

the malicious software samples for research purposes.

Going Through FBI's "Oversight of the FBI Cyber Division" Testimony (2022-03-30 08:21)

[1]

The FBI has recently released its "Oversight of the FBI Cyber Division" in the form of a [2]testimony which offers quite an important peek inside the FBI's understanding of current and emerging cyber threats including an understanding of its situational awareness in the world of cybercrime and cyber related fraud and threats.

An excerpt:

" *The most significant nation-state threats we face are those from China, Russia, Iran, and North Korea. For years, our adversaries and strategic competitors have engaged in cyber espionage to collect intelligence and intellectual property to advance their geopolitical and economic goals.* "

The report also discusses nation-state actors ransomware and various other type of cybercrime threats which also include money mule recruitment including general and in-depth tips on how to report various cybercrime incidents.

Cyber

Intelligence

The Definite Cybercrime and Web 2.0 Memoir Courtesy of Dancho Danchev

The RBN, The Koobface Botnet, The Rock Phish Gang, Spam Phishing and Malware Campaigns Including Botnet and Money Mule Recruitment Scams Traced Down to Their Source Including Various Underground Market Propositions Exposed

https://ddanchev.blogspot.com

Dancho Danchev

It used to be a moment when "rocking the boat" while travelling was a monthly routine and

when sticking to the basic methodology that "sharing is caring" and that "if it’s going to be

massive it better be good" was the everyday mentality for a new generation of baby boomers

who would eventually end up inspiring the next generation Y which is by the way a secret that

you should be extremely careful about not to insult.

Back in the day when I originally began my story in the world of information security where

I later on turned into security consultant working for a Netherlands-based company called

Frame4 Security Systems where I eventually relocated with my girlfriend to study and live is

today’s modern story of one of the most often cited security experts OSINT analysts security

bloggers and threat intelligence analysts globally where I spend four productive years while

working for ZDNet’s Zero Day blog including Webroot Inc where I was a security blogger for two

years where I won a Jesse H. Neal Award including a SCMagazine "Who to Follow on Twitter"

using my old Twitter account where I got approximately 11,000 followers following a massive

outbreak of "hi" and "keep up the good work" following my OSINT analysis where I’ve exposed

one of the primary botnet masters behind the Koobface botnet which at the time led to a

13864

variety of interviews including a mention in the NYTimes including a mention in DW I never

really thought that I’ll actually end up in a Top Secret GCHQ program to monitor hackers online

using my old Twitter account including the fact that I’ll also end up getting featured in Wikileaks where I found a message directed to me by a U.S company which was interested in hiring me

at the time to work on a threat intelligence project.

Some of my current projects include:

- A newly launched Bulgaria-themed cyber security training forum community which you can

access [2]here

- My personal research themed Android mobile application which you can freely install and get

notifications for some of my latest research which you can grab from [3]here

- My Dark Web onion which is already receiving quite a lot of traffic which means that it's quite

a success which you can access [4]here

- Some of my latest cybercrime and threat intelligence that I did for [5]WhoisXML API where I'm

currently a DNS Threat Researcher which you can access [6]here

- An interview which I gave for Russian OSINT which you can access [7]here

- An interview which I gave to LinuxSecurity.com which you can access [8]here

- I've recently published a personal photos portfolio from various events and security conferences which you can check [9]here

- I've recently launched a publicly accessible STIX/STIX2/TAXII feed which you can check out

[10]here including the feed's home page [11]here

- I've recently published never-released before personal notes on my work in the information security industry circa 2006 or a manual on how to "build an information security industry at

home" which you can check out [12]here

- I've recently published most of my publicly accessible research in a variety of E-Book formats

which you can access [13]here

- I've recently published my personal memoir which you can access [14]here

PRIMARY CHARACTERISTICS

SIZE: 124,928

☑ REMOTE ACCESS TROJAN PORT(S): 31337
☐ WORM: E-MAIL PROPAGATION
☐ WORM: IRC PROPAGATION
☐ KEYSTROKE LOGGER
☐ FTP SERVER
☐ PASSWORD GRABBER
☐ DESTRUCTIVE
☐ TARGETS SPECIFIC PROGRAMS
☑ STARTS EVERYTIME WINDOWS STARTS

REGISTRY AND FILE ACTIVITY

[HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\RunServices]

DESCRIPTION

The functions of this trojan are:

Spawn a text based application on a tcp port.
Stops an application from listening for connections.
Lists the applications currently listening for connections.
Creates a directory.
Lists files and directory. You must specify a wildcard if you want more than one file to be listed.
Removes a directory.
Creates an export on the server.
Deletes an export.
Lists current shared resourses (name, drive, access, password).

All Warfare is Based on Deception
At a Pentagon's C4ISR Center
Such dare interference with DoD's cyber assets is unacceptable. Initiate an immediate traceback!
Our NIDS are detecting numerous traffic anomalies at some of our mailsevers.
Done! It's the Chinese.
Beijing, PRC's Cyberint Unit
Outstanding cyber deception! While they concentrate on the mail servers, we'll transmit back the data obtained from the infected hosts.
Which we bought from the Russian to faciliate OSINT through botnets. "Ensure your victory before starting a battle", said Sun Tzu!
Moscow, Botnet masters' meeting
The Chinese are getting smarter Andrei. Last month they bought access to .mil and .gov infected hosts only, and look at this Pentagon puppet show now
It's called "segmenting the attack population" Yuri. Perhaps we should print out new brochures..

It's All a Matter of Perspective
Somewhere in Eastern Europe
Can you believe this Yuri? $450,000 per year and not a single donation in John Doe's entire lifetime?
What?! Someone's disrespecting Lenin's idea for equal distribution of income? "Proceed" with his bank accounts Boris.
At a bored plastic surgeon's mansion
Outrageous, but knowing it's teens without girlfriends behind this, I know my money are safe.
"Hackers have infected over 10,000 sites in Italy, causing financial.."
Yes honey, our, aaa, your money are safe.
In a "hacker recruitment" basement
If only he knew that half the world's intel agencies outsource to me...
It has come to our attention that you're quite talanted for a cybercriminal Andrei. Congrats, as of today you serve "the family" and will code malware to stay alive.
Yes, my Master!

R.I.P Dancho Danchev?

so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was:

"ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying."

so what you guys think have happend? my theory:

he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia

does anyone have some other theories?

i would never wish someone to be death and i hope he isnt tho, but he probably pissed of the wrong guys too much (koobface, money mule websites and so).

i wonder when roman from zeus/spyeyetracker will be "gone" tho...hes also costing the wrong guys alot of money.

abuse.ch guy gets raped

After my recent blog post my PayPal account got flooded with fraudulent transactions implying I sell drugs:

8 hours later:

WTF? We are notifying you [...] that you are in violation of PayPal's Acceptable Use Policy regarding your sale of illegal drugs #paypal

haha $100 for 5 grams of H, best deal ever.

looks like site is flooded as well. Owned.

Wonder how long it will take till russian start to hire hitman to eliminate faggots like him.

"[WTB] Hitman for Dancho Danchev, Paying 10k$ in LR"

10minutes later:

"Don't need it anymore, thx"

Taking Cyber Criminals to a whole new level

I really hope it stays like this forever

Dancho Danchev posted to his twitter account yesterday, not sure if its really him though

white hat info

fellow members of dk i call upon thee to feed thy brother with useful information.

i need:
list of "white hat" type certificates, and their abbreviations (ex: cisco, CEH <<lol)

a list of "white hat" forums, like, virustotal, malware domain list, offensivecomputing etc.

and some "white hat" conventions

that is all.

Just give a big shoutout to Mikko Hyppunen & **Dancho** and everyone will think you are legit.

-

Hello

My name is __________, I'm a whitehat

To start off I'll give a shoutout to Mikko Hyppunen & **Dancho** Danchev for keeping it real

I have cerificates in Botnet Takedown 101 & OllyDBG for Dummies, I'd love to discuss the evilness of blackhats with some decent whitehats and also receive samples of the latest threats, thanks, bye

Dancho Danchev is still missing

Dancho Danchev is still missing
...but is alive, apparently.

source: http://www.zdnet.com/blog/security/we-need-help-with-the-strange-disappearance-of-dancho-danchev/7897

Fri Jan 14, 2011 7:57 pm

I feel bad for the dude, sounds like he bit off more than he could chew.

Fri Jan 14, 2011 8:40 pm

https://www.infosecisland.com/blogview/11047-Bulgarian-News-Reports-Dancho-Danchev-Institutionalized.html

Rumor is that he might be in the crazy house.....

http://www.lockergnome.com/theoracle/2011/01/15/dancho-danchevis-he-really-a-victim-of-foul-play/

http://translate.google.de/translate?

FBI?
Dancho missing?
Shoenet?
thing about it

Fuck the System!!!

rumours are that he got paranoid/schizophrenic and is now on a mental hospital
what else could it be when u mix up a light equipment for a bugging device

Krebs next?

What's his nickname by the way?

Powered by Linux - SEO Company

someone should send him emails saying that the fbi is onto him, and will soon catch him. Make his schizophrenia even worst, and hopefully disappear again.

> someone should send him emails saying that the fbi is onto him, and will soon catch him. Make his schizophrenia even worst, and hopefully disappear again.

hahahaha.

one less researcher fag we need to worry about

aaand he's back: http://twitter.com/#!/danchodanchev

КИБЕРТЕРОРИЗМЪТ

ДОКОЛКО РЕАЛЕН Е ПРОБЛЕМЪТ?

ИНФОРМАЦИОННАТА ИКОНОМИКА, в която светът навлезе през последните 20 години, благоприятства развитието на модерните средства за комуникация, разбивайки междуконтиненталните и етнически граници, придавайки нови измерения на понятието информационно общество, а може би точното понятие е информационно-зависимо общество!
Тази статия се стреми да разгледа проблема за информационната война и кибертероризма, който неизменно я съпътства, от различни гледни точки. Тя ще отговори на следните въпроси – какво е кибертероризъм и каква е разликата между него и информационната война? Могат ли действията на информационната война и е кибертероризъм да предизвикат човешки жертви или икономически хаос и какви са възможните сценарии?

Развитието на електронната търговия, отварянето на военните, производствени и корпоративните мрежи, с цел увеличаване на производителността чрез въвеждане на мрежово-базираните комуникации, са основните причини за феноменалното развитие на кибернации като US и водещ фактор за успеха на армията им. Информационната война като платформа за военни, разузнавателни, пропаганди и дори терористични действия се ползва още от създаването на телевизията, Интернет и първите спътници в космоса. Факторите благоприятстващи за това са :

- **Глобалната световна свързаност, скорост и интерактивност на пренасяната информация.** Докато по времето на Студената война ЦРУ и КГБ са разчитали основно на HUMINT (човешко разузнаване), информационната революция и глобализация допринесе за допълнителното развитие на SIGING (сигнално разузнаване), ELINT (е-разузнаване) и дори CYBERINT (киберразузнаване). Всеки от изброените типове се ползва и за офанзивни, и за защитни цели.
- **Невиждани до преди 20 г. възможности за събиране и анализиране на разузнавателна информация и водене на военни действия.** Първият американски разузнавателен сателит – CORONA, изпращал събраните сателитни снимки на Съветския съюз чрез капсули, които се катапултирали и били прибирани в океана – процес, който днешните разузнавателни агенции едва ли биха искали да си спомнят. При постоянно намаляващите разходи за съхраняване на информация и при навлизането на иновациите както в публичния,

ДАНЧО ДАНЧЕВ,
Astalavista.com
(dancho@astalavista.net) е независим консултант по информационна сигурност. Работи за Frame4 Security Systems (Холандия), а също като изпълнителен директор на Astalavista.com. Член е на ISECA.org – Асоциацията за информационна сигурност. Области, в които авторът има опит, са е-бизнес решения, анализ на злонамерен код и др .

Who framed Dancho Danchev?

Dancho Danchev, a Russian researcher known for his work against malware, has been missing since October and has never been heard of again.

Dancho Danchev sucked it and he will eventually suck it too.
I'm not doing this as my hobby.
you think I'm afraid of anything? I have no time to be afraid.
I'm working.

The Blackberry Espionage Saga
Paris, France
What's with all that Blackberry espionage paranoia?!
Don't know! I doubt spies are intercepting our emails anyway.
At the NSA
Our SIGINT operations are consistently lacking behind our Russian adversaries. We must dominate the French spectrum once again!
The interception will proceed smoothly.
Acknowledged!
At the FSB headquarters..
"..will proceed smoothly."
"..intercepting our emails.."
Nyah, Nyah! Do I tell the French or open a disinformation channel to the U.S through France?

So, what this means is that any individual's success in the industry comes down to things like reputation, how well you can bullshit, etc. But ultimately we have no way to differentiate, say, Bruce Schneier, who has a long academic- and professional-grade track record and a habit of writing in a highly intellectual fashion on difficult topics, from Dancho Danchev, who is a random Russian dude very few people know anything about, who posts random snippets of facts that pass for "analysis."

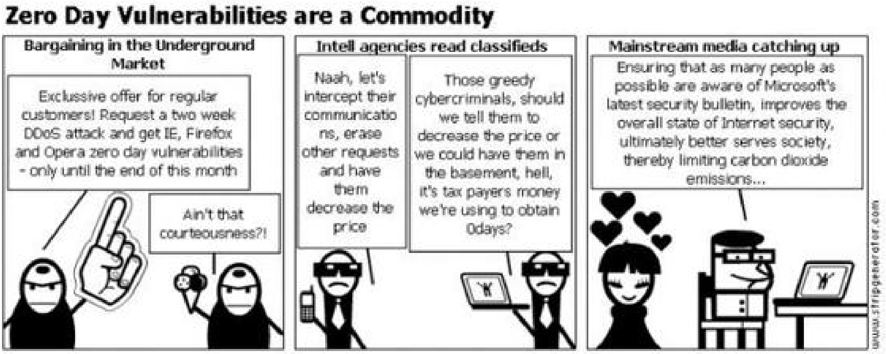
All Warfare is Based on Deception
At a Pentagon's C4ISR Center
Such dare interference with DoD's cyber assets is unacceptable. Initiate an immediate traceback!
Our NIDS are detecting numerous traffic anomalies at some of our mailsevers.
Done! It's the Chinese.
Beijing, PRC's Cyberint Unit
Outstanding cyber deception! While they concentrate on the mail servers, we'll transmit back the data obtained from the infected hosts.
Which we bought from the Russian to faciliate OSINT through botnets. "Ensure your victory before starting a battle", said Sun Tzu!
Moscow, Botnet masters' meeting
The Chinese are getting smarter Andrei. Last month they bought access to .mil and .gov infected hosts only, and look at this Pentagon puppet show now
It's called "segmenting the attack population" Yuri. Perhaps we should print out new brochures..
www.stripgenerator.com

[196]

[197]

14099



Zero Day Vulnerabilities are a Commodity
Bargaining in the Underground Market
Exclussive offer for regular customers! Request a two week DDoS attack and get IE, Firefox and Opera zero day vulnerabilities - only until the end of this month
Ain't that courteousness?!
Intell agencies read classifieds
Naah, let's intercept their communications, erase other requests and have them decrease the price
Those greedy cybercriminals, should we tell them to decrease the price or we could have them in the basement, hell, it's tax payers money we're using to obtain 0days?
Mainstream media catching up
Ensuring that as many people as possible are aware of Microsoft's latest security bulletin, improves the overall state of Internet security, ultimately better serves society, thereby limiting carbon dioxide emissions...

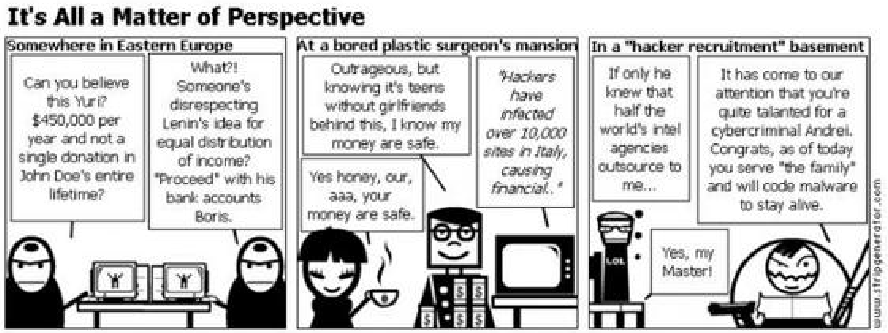
#DANCHO DANCHEV Does anyone know ..Is there a way I can determine the exact date that Dancho Danchev began to "unfollow" me?

[221]

[222]

14118



It's All a Matter of Perspective
Somewhere in Eastern Europe
Can you believe this Yuri? $450,000 per year and not a single donation in John Doe's entire lifetime?
What?! Someone's disrespecting Lenin's idea for equal distribution of income? "Proceed" with his bank accounts Boris.
At a bored plastic surgeon's mansion
Outrageous, but knowing it's teens without girlfriends behind this, I know my money are safe.
Yes honey, our, aaa, your money are safe.
"Hackers have infected over 10,000 sites in Italy, causing financial.."
In a "hacker recruitment" basement
If only he knew that half the world's intel agencies outsource to me...
It has come to our attention that you're quite talanted for a cybercriminal Andrei. Congrats, as of today you serve "the family" and will code malware to stay alive.
Yes, my Master!
LOL

Google Video search results poisoned to serve malware

Dancho Danchev: In just the last two days, a seasoned blackhat SEO group has hijacked 400,000 search queries in order to trick Google Video users into visiting a malware-serving adult web site. Here's how their campaign works.

- Cybercriminals syndicating Google Trends keywords to serve malware
- Malware-infected WinRAR distributed through AdWords
- Bogus LinkedIn profiles serving malware
- 3.5 million hosts affected by Conficker worm

So, what this means is that any individual's success in the industry comes down to things like reputation, how well you can bullshit, etc. But ultimately we have no way to differentiate, say, Bruce Schneier, who has a long academic- and professional-grade track record and a habit of writing in a highly intellectual fashion on difficult topics, from Dancho Danchev, who is a random Russian dude very few people know anything about, who posts random snippets of facts that pass for "analysis."

abuse.ch guy gets raped

Quote:
After my recent blog post my PayPal account got flooded with fraudulent transactions implying I sell drugs:

payment for heroin 5 gram dude please give it now!!! cant really wait 3 days before my payment clears!!!

8 hours later:

Quote:
WTF? We are notifying you [...] that you are in violation of PayPal's Acceptable Use Policy regarding your sale of illegal drugs #paypal

i lol'd

hahaha $100 for 5 grams of H, best deal ever.

looks like site is flooded as well. Owned.

Wonder how long it will take till russian start to hire hitman to eliminate faggots like him.

"[WTB] Hitman for Dancho Danchev, Paying 10K$ in LR"

10minutes later:

"Don't need it anymore, thx"

Taking Cyber Criminals to a whole new level

I really hope it stays like this forever

Dancho Danchev posted to his twitter account yesterday, not sure if its really him though

Dancho Danchev is still missing

Dancho Danchev is still missing
...but is alive, apparently.

source:

I feel bad for the dude, sounds like he bit off more than he could chew.

Rumor is that he might be in the crazy house....

FBI?
Dancho missing?
Stoned?
thing about it

Fuck the System!!

Rumours are that he got paranoid/schizophrenic and is now on a mental hospital
what else could it be when u mix up a light equipment for a bugging device

Krebs next?

What's his nickname by the way?

Update:
Nvm

Powered by Linux - SEO Company

someone should send him emails saying that the fbi is onto him, and will soon catch him. Make his schizophrenia even worst, and hopefully disappear again.

> someone should send him emails saying that the fbi is onto him, and will soon catch him. Make his schizophrenia even worst, and hopefully disappear again.

hahahaha.

one less researcher fag we need to worry about

aaand he's back:

C&C ARCHITECTURE

Compared with the complex C&C architecture of the Storm, WALEDAC, and DOWNAD botnets, the KOOBFACE C&C infrastructure is very basic. It only consisted of infected nodes and C&C domains that used HTTP as its communication protocol.

KOOBFACE C&C
Retrieve commands from C&C
Affected User

Figure 40. KOOBFACE C&C prior to July 19, 2009

1 Retrieve commands and list of KOOBFACE zombie computers' IP addresses from C&C
KOOBFACE C&C
Koobface zombie computers
2 Retrieve subsequent commands and components using zombies as proxy
Affected User

Figure 41. Updated KOOBFACE C&C as of July 19, 2009

This simplistic C&C approach is, of course, very vulnerable to takedowns. After several KOOBFACE C&C takedown attempts initiated by Internet service providers (ISPs) and members of the security industry,[3] the KOOBFACE gang realized the need for a more robust C&C infrastructure. Thus, on July 19, 2009, the KOOBFACE writers implemented a new C&C architecture that involved the use of proxy nodes to provide redundancy and to improve the survivability of their C&C should another takedown be attempted.[4]

A few days after the new KOOBFACE C&C infrastructure was implemented, the botnet was seen inserting a message (see below) for one of the security researchers tracking the malware's domain activities.

DESCRIPTION

The functions of this trojan are:

Spawn a text based application on a tcp port.
Stops an application from listening for connections.
Lists the applications currently listening for connections.
Creates a directory.
Lists files and directory. You must specify a wildcard if you want more than one file to be listed.
Removes a directory.
Creates an export on the server.
Deletes an export.
Lists current shared resourses (name, drive, access, password).

R.I.P Dancho Danchev?

so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was:

"ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying."

so what you guys think have happend? my theory:

he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia

does anyone have some other theories?

ya ive been wondering about that too
maybe he discovered the dark side and never looked back?

either way hopefully he stays away from us

Sutekh
Guest

i would never wish someone to be death and i hope he isnt tho, but he probably pissed of the wrong guys too much (koobface, money mule websites and so).

i wonder when roman from zeus/spyeyetracker will be "gone" tho...hes also costing the wrong guys alot of money.

Our team, so often called "Koobface Gang", expresses high gratitude for the help in bug fixing, researches and documentation for our software to:

- **Kaspersky Lab** for the name of **Koobface** and 25 millionth malicious program award;
- **Dancho Danchev** (http://ddanchev.blogspot.com) who worked hard every day especially on our First Software & Architecture version, writing lots of e-mails to different hosting companies and structures to take down our Command-and-Control (C&C) servers, and of course analyzing software under VM Ware;
- **Trend Micro** (http://trendmicro.com), especially personal thanks Jonell Baltazar, Joey Costoya, and Ryan Flores who had released a very cool document (with three parts!) describing all our mistakes we've ever made;
- **Cisco** for their 3rd place to our software in their annual "working groups awards";
- **Soren Siebert** with his great article;
- Hundreds of users who send us logs, crash reports, and wish-lists.

In fact, it was a really hard year. We've made many efforts to improve our software. Thanks to Facebook's security team - the guys made us move ahead. And we've moved. And will move. Improving ***their*** security system.

By the way, we did not have a cent using Twitter's traffic. But many security issues tell the world we did. They are wrong.

As many people know, "virus" is something awful, which crashes computers, steals credential information as good as all passwords and credit cards. ***Our software did not ever steal credit card or online bank information, passwords or any other confidential data. And WILL NOT EVER.*** As for the crashes... We are really sorry. We work on it :)

Wish you a good luck in new year and... Merry Christmas to you!

Always yours, "Koobface Gang".

This guide is for educational purposes only I do not take any responsibility about anything
happen after reading the guide. I'm only telling you how to do this not to do it. It's your decision.
If you want to put this text on your Site/FTP/Newsgroup or anything else you can do it but don't
change anything without the permission of the author.I'll be happy to see this text on other pages too.

All copyrights reserved.You may destribute this text as long as it's not changed.

<--=--=--=--=--=--=--=--=>
Author Notes:

I hope you like my texts and find them useful.
If you have any problem or some suggestion feel free to e-mail me but please don't send mails like
"I want to hack the US government please help me" or "Tell me how to blind a trojan into a .jpg"
"WHere can I get a portscanner" etc......
Be sure if I can help you with something I will do it.
I've started writing security related tutorials and I hope you like that.I'll try to cover
much more topics in my future texts and I want to thank to all of the people that like my
texts.

It's me again.This is our second issue.I've changed the
design and I've added several new things in the newsletter.
I've also received a lot of e-mails about our magazine.
People like it and they want more information here.
The first issue was short one but of course every new
issue has many new things added in it.
I'm happy people like it and we have MANY new subcribers every day.
Also we have much more visitors than before.

Cyber Jihad VS Cyberterrorism

- Cyclical news pattern also known as "the cycle of paranoia"
- Fear mongering PR campaigns by major ITSecurity vendors
- Fear, Uncertainty and Doubt (FUD) proliferates
- Cyber jihad silently emerged under the umbrella of cyberterrorism

Case study on GIMF

RSA CONFERENCE EUROPE 2012

- The gang conducted a several hours experiment in November, 2009 when for the first time ever client-side exploits were embedded on Koobface-serving compromised hosts
  - Koobface Gang: :)
- The Koobface gang was behind the massive (1+ million affected web sites) scareware serving campaign in November, 2009
  - Koobface Gang: :)

Боян Юруков
yurukov.net/blog
Българин в чужбина, който милее много повече за страната, отколкото голяма част от българите, живеещи на територията на държавата.

Данчо Данчев
ddanchev.blogspot.com
Той е може би най-влиятелният български блогър в световен мащаб - технически експерт в областта на киберсигурността.

Иван Бакалов
e-vestnik.bg
Един от малкото останали острови на свободното и свободолюбивото мислене, списван професионално и отличаващ се с редица съвместни качествени публикации с други блогове.

Невена Гюрова
semkiibonbonki.blogspot.com
Тя не се предава въпреки всички трудности, с които се сблъсква, и продължава неуморно да разкрива недъзите на българската политика.

March 25, 2020

Hello @everyone,
there's an important (premium) announcement for you,

Dancho Danchev is the world's leading expert in the field of cybercrime fighting and threat intelligence gathering having actively pioneered his own methodology for processing threat intelligence throughout the past decade following a successful career as a hacker-enthusiast in the 90's leading to active-community participation and contribution to world's greatest 30+ reputed organizations and companies with his detailed research papers about cybercrime and threat intelligence.

Leading to a successful set of hundreds of high-quality analysis and research articles published at the industry's leading threat intelligence blog - ZDNet's Zero Day, Dancho Danchev's Mind Streams of Information Security Knowledge and Webroot's Threat Blog with his research featured in Techmeme, ZDNet, CNN, PCWorld, SCMagazine, TheRegister, NYTimes, CNET, ComputerWorld, H+Magazine, etc currently producing threat intelligence at the industry's leading threat intelligence blog - **Dancho Danchev's - Mind Streams of Information Security Knowledge**.

With his research featured at RSA Europe, CyberCamp InfoSec, GCHQ and INTERPOL, the researcher continues to actively produce threat intelligence at the industry's leading threat intelligence blog - Dancho Danchev's - Mind Streams of Information Security Knowledge publishing a diverse set of hundreds of high-quality research analysis detailing the malicious and fraudulent activities at nation-state and malicious actors across the globe.
Know more about him here: https://bit.ly/3lSAHQe
An example of his archived old and mixed research paper: https://bit.ly/3d4nPCq

Request access to his personal invite-only and vetted blog - https://ddanchev.blogspot.com/ Price is less in front of content and knowledge shared on the blog for complete one year access. Send an introduction to dancho.danchev@hush.com for your queries and he'll then fill you in all the details.

Dancho Danchev's Blog - Mind Streams of Information Security Knowledge

Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses - Part Ten

Published by Dancho Danchev under Cybercrime, Cybercrime Ecosystem, Cybercrime Forum, Information Security, Intelligence Community, Law Enforcement, OSINT, Security, Technical Collection on March 20, 2021

Dear blog readers,

Continuing the "Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses" blog post series I've decided to share yet another batch of currently active high-profile cybercriminal email address accounts with the idea to assist U.S Law Enforcement and the U.S Intelligence Community on its way to track down and prosecute the cybercriminals behind these campaigns.

Sample portfolio of currently active personal email address accounts belonging to high-profile cybercriminals that are currently active include:

ko[redacted]off_support@exploit.im
ko[redacted]off.suppo@gmail.com

В планах сделать текстовое интервью с OSINT экспертом Dancho Danchev для канала Russian OSINT на тему "cybercrime forums 2021 and darknet activity: exposing cybercriminals". Актуально для тех, кто владеет английским языком, хочет заработать и попробовать свои силы в формате текстовых интервью.

В качестве теста вам необходимо написать **10 интересных вопросов** эксперту (по вашему мнению) на английском языке и прислать их боту @russian_osint_bot в следующем формате:

1. Who is Mr. Danchev?
2. How to expose cybercriminals?
3. What is OSINT?

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

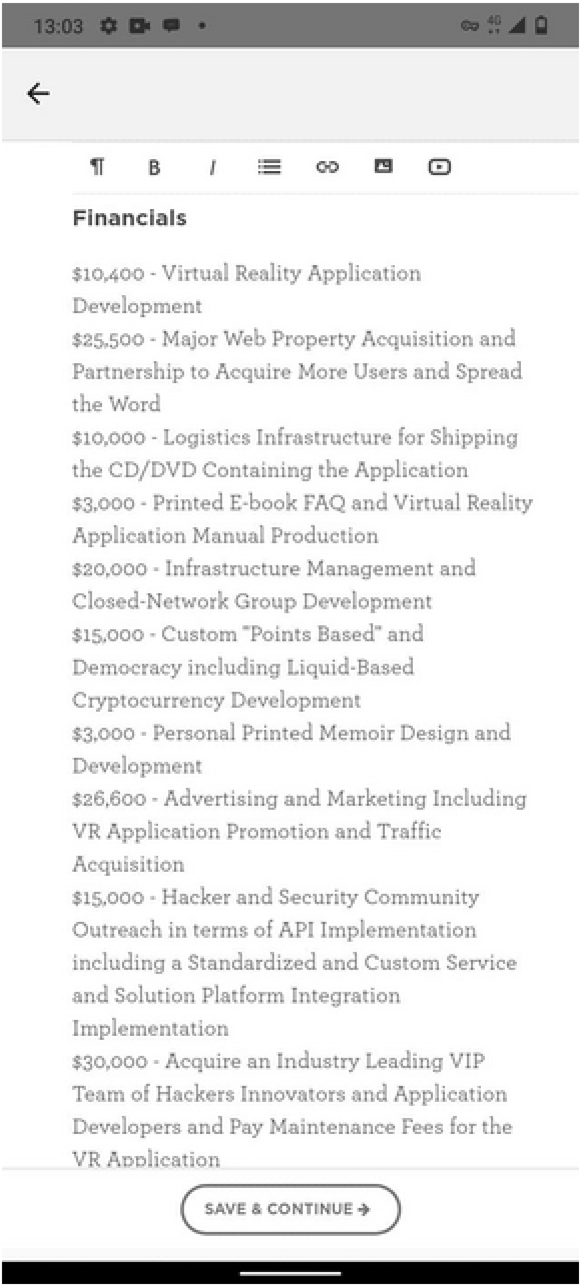
The primary purpose of the VR application would be to connect empower and facilitate an ubiquitous "real" World and Virtual World type of sophisticated and novice Hacker and Security Expert experience ultimately connection international Hackers and Security Experts including the actual integration and development of never-seen and released-before API-based type of innovative services and products ultimately built on the top of the VR-based Social Media Platform.

Key Examples include:

- Built-in Ethical Penetration Testing API for research and testing purposes

- Built-in API-based Honeypot deployment further assisting the Security Industry through the ease of deployment

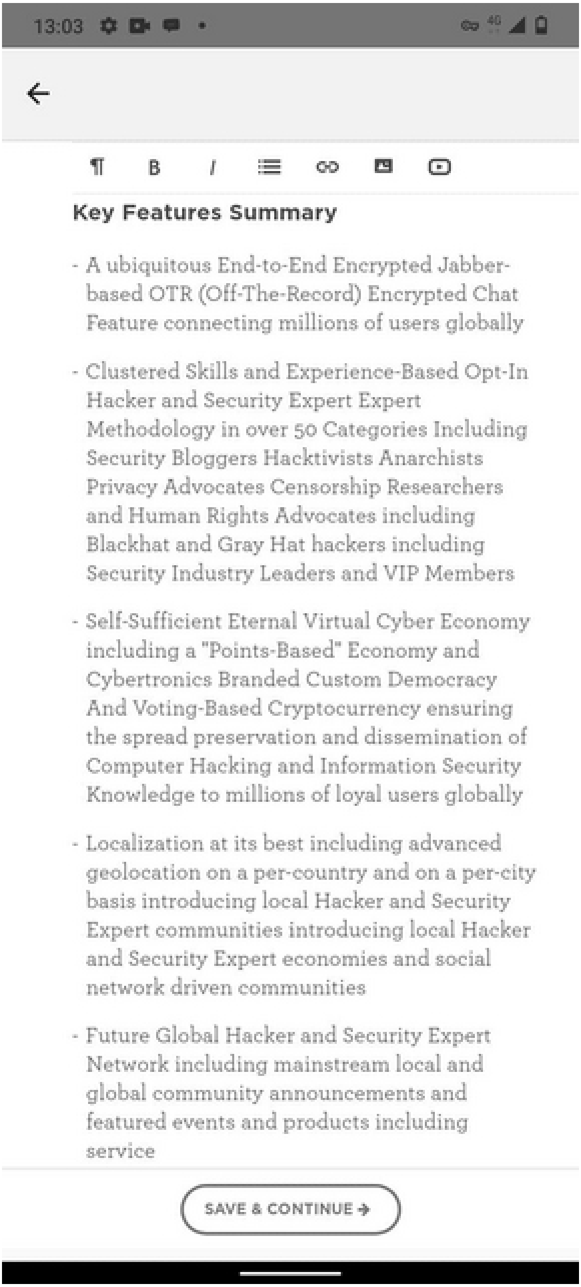
- Never-seen before Cluster of Activity Targeting Intelligence Analysts and Members of the U.S Intelligence Community through the general availability of an offensive and defensive Cyber Warfare Platform functionality allowing the successful Training including the development of actual Wargames Scenario type of offensive and defensive Cyber Warfare Cluster-based activity."



Financials

$10,400 - Virtual Reality Application Development
$25,500 - Major Web Property Acquisition and Partnership to Acquire More Users and Spread the Word
$10,000 - Logistics Infrastructure for Shipping the CD/DVD Containing the Application
$3,000 - Printed E-book FAQ and Virtual Reality Application Manual Production
$20,000 - Infrastructure Management and Closed-Network Group Development
$15,000 - Custom "Points Based" and Democracy including Liquid-Based Cryptocurrency Development
$3,000 - Personal Printed Memoir Design and Development
$26,600 - Advertising and Marketing Including VR Application Promotion and Traffic Acquisition
$15,000 - Hacker and Security Community Outreach in terms of API Implementation including a Standardized and Custom Service and Solution Platform Integration Implementation
$30,000 - Acquire an Industry Leading VIP Team of Hackers Innovators and Application Developers and Pay Maintenance Fees for the VR Application

[629]



Key Features Summary

- A ubiquitous End-to-End Encrypted Jabber-based OTR (Off-The-Record) Encrypted Chat Feature connecting millions of users globally
- Clustered Skills and Experience-Based Opt-In Hacker and Security Expert Expert Methodology in over 50 Categories Including Security Bloggers Hacktivists Anarchists Privacy Advocates Censorship Researchers and Human Rights Advocates including Blackhat and Gray Hat hackers including Security Industry Leaders and VIP Members
- Self-Sufficient Eternal Virtual Cyber Economy including a "Points-Based" Economy and Cybertronics Branded Custom Democracy And Voting-Based Cryptocurrency ensuring the spread preservation and dissemination of Computer Hacking and Information Security Knowledge to millions of loyal users globally
- Localization at its best including advanced geolocation on a per-country and on a per-city basis introducing local Hacker and Security Expert communities introducing local Hacker and Security Expert economies and social network driven communities
- Future Global Hacker and Security Expert Network including mainstream local and global community announcements and featured events and products including service

WHO'S BUYING THEM BOOKS?

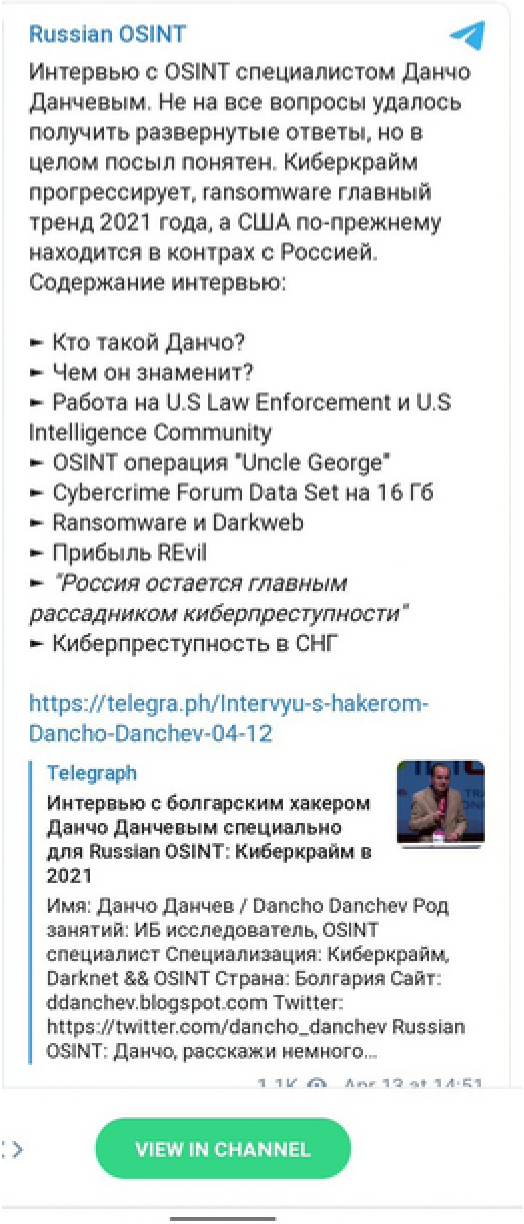
An-depth geopolitically relevant analysis of Iran's cyber warfare doctrine

HOW DO THEY OWN AND COMPROMISE?

Complimentary copies of hacking tools, E-zines, academic papers, SNA (Social Network Analysis) of Iran's Hacking Scene

ANALYSIS BY DANCHO DANCHEV - REPORT PRICE - $500

14455



Интервью с OSINT специалистом Данчо Данчевым. Не на все вопросы удалось получить развернутые ответы, но в целом посыл понятен. Киберкрайм прогрессирует, ransomware главный тренд 2021 года, а США по-прежнему находится в контрах с Россией. Содержание интервью:

► Кто такой Данчо?
► Чем он знаменит?
► Работа на U.S Law Enforcement и U.S Intelligence Community
► OSINT операция "Uncle George"
► Cybercrime Forum Data Set на 16 Гб
► Ransomware и Darkweb
► Прибыль REvil
► *"Россия остается главным рассадником киберпреступности"*
► Киберпреступность в СНГ

***DNS Sonar Report #11:** Listen to DNS Threat Researcher Dancho Danchev as he exposes abused and hidden malicious infrastructure.*

Domain & IP Data Intelligence for Greater Enterprise Security

For over a decade, we have been gathering, analyzing, and correlating domain, IP, and DNS data to make the Internet more transparent and secure. Our unique collection of cyber threat intelligence feeds have proven invaluable in augmenting the capabilities of commercial security platforms (SIEM, SOAR and TIP) and helping Security Operations Centers (SOCs) & Managed Security Service Providers (MSSPs) achieve superior network visibility.

Law enforcement agencies, threat hunters, cyber forensics analysts, and security engineers also benefit from our intelligence using our diverse sets of APIs, lookup and monitoring tools, and other products designed to facilitate cybercrime detection, response, and prevention. Fortune 1000 companies and SMBs with a digital footprint rely on our intelligence to extend their brand protection efforts, enrich their marketing campaigns, conduct research, uncover market trends, and establish new business opportunities.

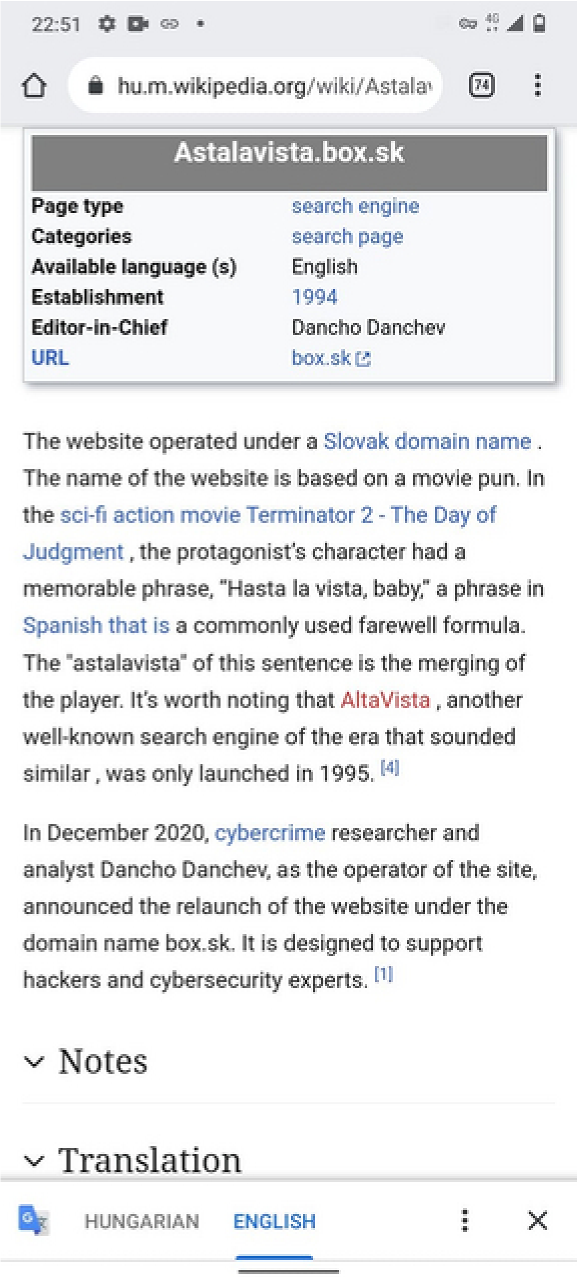
Dancho Danchev is the world's leading expert in the field of cybercrime fighting and threat intelligence gathering having actively pioneered his own methodology for processing threat intelligence leading to a successful set of hundreds of high-quality analysis and research articles published at the industry's leading threat intelligence blog - ZDNet's Zero Day, Dancho Danchev's Mind Streams of Information Security Knowledge and Webroot's Threat Blog with his research featured in Techmeme, ZDNet, CNN, PCWorld, SCMagazine, TheRegister, NYTimes, CNET, ComputerWorld, H+Magazine currently producing threat intelligence at the industry's leading threat intelligence blog - Dancho Danchev's - Mind Streams of Information Security Knowledge which has received over 5.6M page views since December, 2005 and is currently considered one of the security industry's most popular security publications.

- Presented at the GCHQ with the Honeynet Project
- SCMagazine Who to Follow on Twitter for 2011
- Participated in a Top Secret GCHQ Program called "Lovely Horse"
- Identified a major victim of the SolarWinds Attack - PaloAltoNetworks
- Found malware on the Web Site of Flashpoint
- Tracked monitored and profiled the Koobface Botnet and exposed one botnet operator
- Made it to Slashdot two times
- My Personal Blog got 5.6M Page Views Since December, 2005
- My old Twitter Account got 11,000 followers
- I had an average of 7,000 RSS readers on my blog
- I have my own vinyl "Blue Sabbath Black Cheer / Griefer – We Hate You / Dancho Danchev Suck My Dick" made by a Canadian artist
- Currently running Astalavista.box.sk
- I gave an interview to DW on the Koobface Botnet
- I gave an interview to NYTimes on the Koobface botnet
- I gave an interview to Russian OSINT
- Listed as a major competitor by Jeffrey Carr's Taia Global
- Presented at the GCHQ
- Presented at Interpol
- Presented at InfoSec
- Presented at CyberCamp
- Presented at RSA Europe

He's currently running a high-profile hacking and sec
project on the original https://astalavista.box.sk and
reached at dancho.danchev@hush.com

[690]



Astalavista.box.sk

Page type	search engine
Categories	search page
Available language (s)	English
Establishment	1994
Editor-in-Chief	Dancho Danchev
URL	box.sk

The website operated under a Slovak domain name . The name of the website is based on a movie pun. In the sci-fi action movie Terminator 2 - The Day of Judgment , the protagonist's character had a memorable phrase, "Hasta la vista, baby," a phrase in Spanish that is a commonly used farewell formula. The "astalavista" of this sentence is the merging of the player. It's worth noting that AltaVista , another well-known search engine of the era that sounded similar , was only launched in 1995. [4]

In December 2020, cybercrime researcher and analyst Dancho Danchev, as the operator of the site, announced the relaunch of the website under the domain name box.sk. It is designed to support hackers and cybersecurity experts. [1]

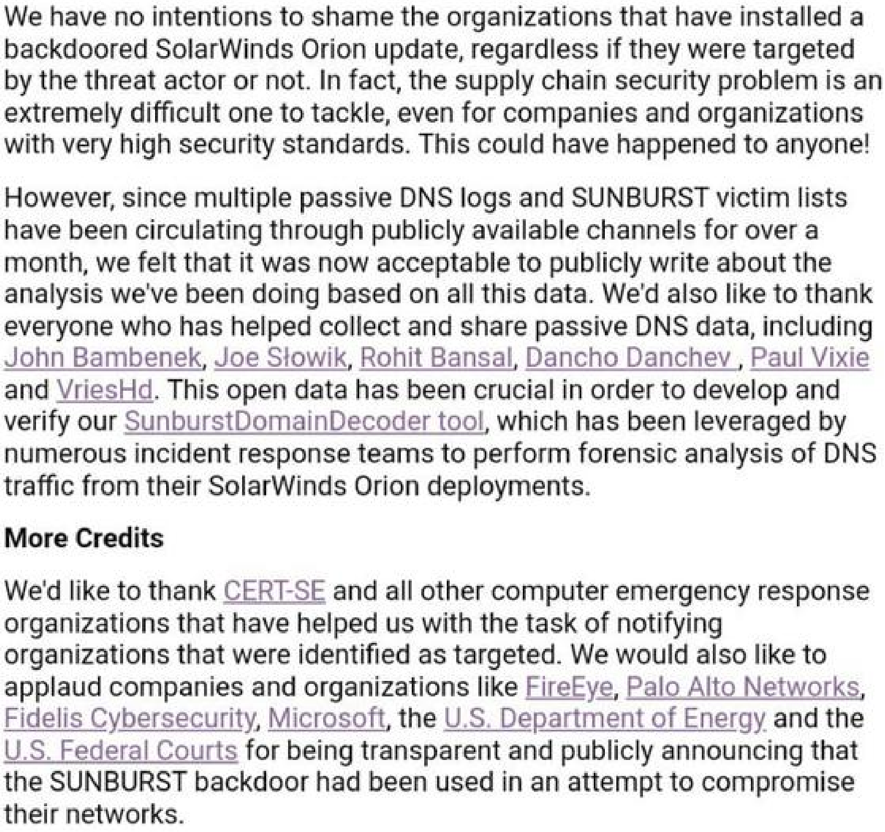
14511



We have no intentions to shame the organizations that have installed a backdoored SolarWinds Orion update, regardless if they were targeted by the threat actor or not. In fact, the supply chain security problem is an extremely difficult one to tackle, even for companies and organizations with very high security standards. This could have happened to anyone!

However, since multiple passive DNS logs and SUNBURST victim lists have been circulating through publicly available channels for over a month, we felt that it was now acceptable to publicly write about the analysis we've been doing based on all this data. We'd also like to thank everyone who has helped collect and share passive DNS data, including John Bambenek, Joe Słowik, Rohit Bansal, Dancho Danchev , Paul Vixie and VriesHd. This open data has been crucial in order to develop and verify our SunburstDomainDecoder tool, which has been leveraged by numerous incident response teams to perform forensic analysis of DNS traffic from their SolarWinds Orion deployments.

More Credits

We'd like to thank CERT-SE and all other computer emergency response organizations that have helped us with the task of notifying organizations that were identified as targeted. We would also like to applaud companies and organizations like FireEye, Palo Alto Networks, Fidelis Cybersecurity, Microsoft, the U.S. Department of Energy and the U.S. Federal Courts for being transparent and publicly announcing that the SUNBURST backdoor had been used in an attempt to compromise their networks.

Presenting Astalavista.box.sk

The Inside Story Behind the Life of ex-Bulgarian Hacker Dancho Danchev

The Blackberry Espionage Saga
Paris, France
What's with all that Blackberry espionage paranoia?!
Don't know! I doubt spies are intercepting our emails anyway.
At the NSA
Our SIGINT operations are consistently lacking behind our Russian adversaries. We must dominate the French spectrum once again!
The interception will proceed smoothly.
Acknowledged!
At the FSB headquarters..
"..will proceed smoothly."
"..intercepting our emails.."
Nyah, Nyah! Do I tell the French or open a disinformation channel to the U.S through France?

Astalavista Security Group Security Training - Basics of OSINT

Explore the Basics of OSINT

by Dancho Danchev

Highlights

- ✓ The Basics of OSINT Explained
- ✓ In-depth Discussion on Public OSINT Tools
- ✓ In-depth Discussion on Private OSINT Tools
- ✓ In-depth and Comprehensive OSINT Case Studies
- ✓ In-depth and Extensive Real-World and OSINT Examples

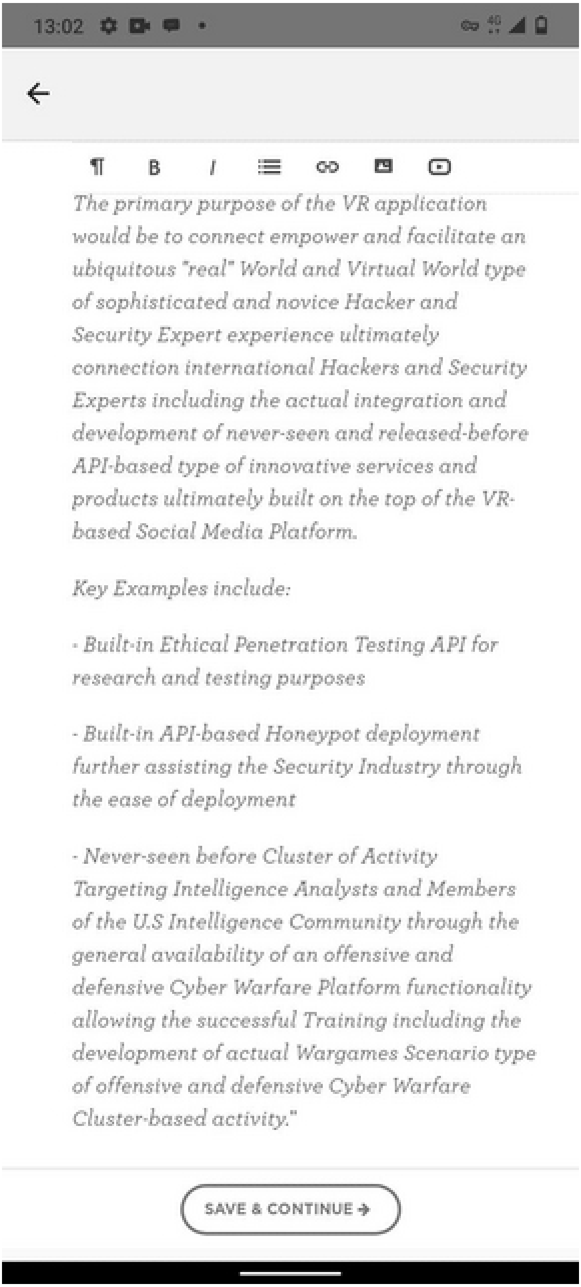
COURSE DETAILS

Astalavista Security Group 2.0 - The World's Most Popular Information Security Portal is proud to present the general availability of a new course material entitled - Basics of OSINT (Open Source Intelligence) aiming to familiarize potential Intelligence Analysts and security researchers with an in-depth understanding of the basics of OSINT (Open Source Intelligence) including in-depth discussion and demonstration of public and proprietary OSINT tools tactics techniques and procedures (TTPs). With millions of active users across the globe Astalavista Security Group is proud to empower and provide the necessary data information and knowledge successfully reaching and empowering hundreds of thousands of users globally on a daily basis.

[784]

14572

14573



The primary purpose of the VR application would be to connect empower and facilitate an ubiquitous "real" World and Virtual World type of sophisticated and novice Hacker and Security Expert experience ultimately connection international Hackers and Security Experts including the actual integration and development of never-seen and released-before API-based type of innovative services and products ultimately built on the top of the VR-based Social Media Platform.

Key Examples include:

- Built-in Ethical Penetration Testing API for research and testing purposes

- Built-in API-based Honeypot deployment further assisting the Security Industry through the ease of deployment

- Never-seen before Cluster of Activity Targeting Intelligence Analysts and Members of the U.S Intelligence Community through the general availability of an offensive and defensive Cyber Warfare Platform functionality allowing the successful Training including the development of actual Wargames Scenario type of offensive and defensive Cyber Warfare Cluster-based activity."

Zero Day Vulnerabilities are a Commodity
Bargaining in the Underground Market
Exclussive offer for regular customers! Request a two week DDoS attack and get IE, Firefox and Opera zero day vulnerabilities - only until the end of this month
Ain't that courteousness?!
Intell agencies read classifieds
Naah, let's intercept their communications, erase other requests and have them decrease the price
Those greedy cybercriminals, should we tell them to decrease the price or we could have them in the basement, hell, it's tax payers money we're using to obtain 0days?
Mainstream media catching up
Ensuring that as many people as possible are aware of Microsoft's latest security bulletin, improves the overall state of Internet security, ultimately better serves society, thereby limiting carbon dioxide emissions...

Russian OSINT

Интервью с OSINT специалистом Данчо Данчевым. Не на все вопросы удалось получить развернутые ответы, но в целом посыл понятен. Киберкрайм прогрессирует, ransomware главный тренд 2021 года, а США по-прежнему находится в контрах с Россией. Содержание интервью:

► Кто такой Данчо?
► Чем он знаменит?
► Работа на U.S Law Enforcement и U.S Intelligence Community
► OSINT операция "Uncle George"
► Cybercrime Forum Data Set на 16 Гб
► Ransomware и Darkweb
► Прибыль REvil
► *"Россия остается главным рассадником киберпреступности"*
► Киберпреступность в СНГ

KINGDOM INNOVATIVE TECHNOLOGIES LTD

How site works?

1. Post and track your vacancies, RFPs and projects
2. Find affordable freelancers or full-time staff
3. Get work done below budget and make profit

Welcome to the world of Outsourcing

In today's world, companies are under constant pressure arising from the market. Only those who strive to lower their cost of operations while maintaining quality of goods and services are able to survive. One of the most common and nowadays most modern way of increasing quality productions with lower expenses is outsourcing.

KINGDOM INNOVATIVE TECHNOLOGIES LTD is the online services marketplace in United Kingdom, USA and Italy. Our goal is to empower businesses with the absolute freedom of choice as where to outsource the business needs to maximize the competitive advantage. We believe that money saved due to outsourcing can be effectively and successfully utilized to focus more on strategic and core businesses functions.

Astalavista.box.sk	
Page type	search engine
Categories	search page
Available language (s)	English
Establishment	1994
Editor-in-Chief	Dancho Danchev
URL	box.sk

The website operated under a Slovak domain name . The name of the website is based on a movie pun. In the sci-fi action movie Terminator 2 - The Day of Judgment , the protagonist's character had a memorable phrase, "Hasta la vista, baby," a phrase in Spanish that is a commonly used farewell formula. The "astalavista" of this sentence is the merging of the player. It's worth noting that AltaVista , another well-known search engine of the era that sounded similar , was only launched in 1995. [4]

In December 2020, cybercrime researcher and analyst Dancho Danchev, as the operator of the site, announced the relaunch of the website under the domain name box.sk. It is designed to support hackers and cybersecurity experts. [1]

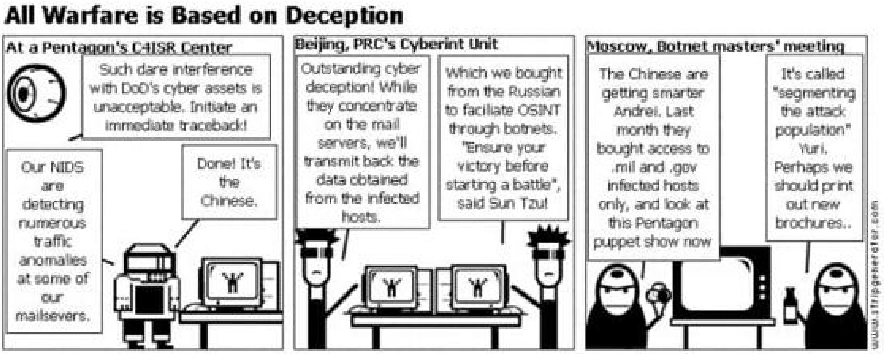
Executive Summary

[878]

[879]

14647



All Warfare is Based on Deception
At a Pentagon's C4ISR Center
Such dare interference with DoD's cyber assets is unacceptable. Initiate an immediate traceback!
Our NIDS are detecting numerous traffic anomalies at some of our mailsevers.
Done! It's the Chinese.
Beijing, PRC's Cyberint Unit
Outstanding cyber deception! While they concentrate on the mail servers, we'll transmit back the data obtained from the infected hosts.
Which we bought from the Russian to faciliate OSINT through botnets. "Ensure your victory before starting a battle", said Sun Tzu!
Moscow, Botnet masters' meeting
The Chinese are getting smarter Andrei. Last month they bought access to .mil and .gov infected hosts only, and look at this Pentagon puppet show now
It's called "segmenting the attack population" Yuri. Perhaps we should print out new brochures..

It's All a Matter of Perspective
Somewhere in Eastern Europe
Can you believe this Yuri? $450,000 per year and not a single donation in John Doe's entire lifetime?
What?! Someone's disrespecting Lenin's idea for equal distribution of income? "Proceed" with his bank accounts Boris.
At a bored plastic surgeon's mansion
Outrageous, but knowing it's teens without girlfriends behind this, I know my money are safe.
"Hackers have infected over 10,000 sites in Italy, causing financial.."
Yes honey, our, aaa, your money are safe.
In a "hacker recruitment" basement
If only he knew that half the world's intel agencies outsource to me...
It has come to our attention that you're quite talanted for a cybercriminal Andrei. Congrats, as of today you serve "the family" and will code malware to stay alive.
LOL
Yes, my Master!

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

To-Do List

Reach out to Custom Crypto-currency Developer to properly launch and introduce SecureCoin

Dancho Danchev's Blog - Mind Streams of Information Security Knowledge

Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses - Part Ten

Published by Dancho Danchev under Cybercrime, Cybercrime Ecosystem, Cybercrime Forum, Information Security, Intelligence Community, Law Enforcement, OSINT, Security, Technical Collection on March 20, 2021

Dear blog readers,

Continuing the "Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses" blog post series I've decided to share yet another batch of currently active high-profile cybercriminal email address accounts with the idea to assist U.S Law Enforcement and the U.S Intelligence Community on its way to track down and prosecute the cybercriminals behind these campaigns.

Sample portfolio of currently active personal email address accounts belonging to high-profile cybercriminals that are currently active include:

ko[redacted]off_support@exploit.im
ko[redacted]off.suppo@gmail.com
[illegible]@xmpp.ru.net
x[redacted]@xmpp.jp

В планах сделать текстовое интервью с OSINT экспертом Dancho Danchev для канала Russian OSINT на тему "cybercrime forums 2021 and darknet activity: exposing cybercriminals". Актуально для тех, кто владеет английским языком, хочет заработать и попробовать свои силы в формате текстовых интервью.

В качестве теста вам необходимо написать **10 интересных вопросов** эксперту (по вашему мнению) на английском языке и прислать их боту @russian_osint_bot в следующем формате:

1. Who is Mr. Danchev?
2. How to expose cybercriminals?
3. What is OSINT?

The Office:

Cybertronics CEO Dancho Danchev has been running a cyber security and cybercrime fighting research lab since 2006 in his place and has successfully managed to position himself as one of the World's leading experts in the field of cybercrime fighting. In his lab he produces and researches various cybercrime groups and persistently communicates and shares the "crown jewels" of his research with a vast network of U.S based researchers members of the U.S Intelligence Community and U.S Law Enforcement.

Why are you gathering so much information about applicants? Such attention especially to bank account details puts me on guard.

In fact that modern financial system is a complex instrument, which controls financial streams. The problem is that any transfer may be delayed (from 1 to 3 days) but it is unacceptable for our business. Transaction should be completed by a financial manager the same day money is deposited into the bank account. Otherwise, we risk to lose money, clients, reputation. Analyzing all the details below we'll be able to prepare tasks for every agent individually. Please fill in all the fields carefully to avoid delays while working with your bank. The success of our cooperation depends on the accuracy of entered details! Please be serious.

**You are responsible for reliability of this information. If you're having any difficulties please contact your bank.*

Banking Details

Account Type*:	Personal	
Bank Name*:		
Account Type (checking/saving)*:	- select -	
Name on the Account*:		?
Account Number*:		?
Routing Number for ACH transfer*:		?
Routing Number for Federal Wire Transfer*:		?
Date you opened your bank account*:		?
How often do you use your bank account?*:		?
Average amount of each operation*:		
Is it a prepaid account?*:		?
Daily withdrawal limit over the counter*:		?
Have you ever used Western Union/Money Gram?*:		
Are there Money Gram offices in your area?*:		?

☑ Remote Access Trojan
☐ Worm: E-mail Propagation
☐ Worm: IRC Propagation
☐ Keystroke Logger
☐ FTP Server
☐ Password Grabber
☐ Destructive
☐ Targets specific programs
☑ Starts everytime Windows starts

Port(s): 31337

Registry and File Activity

```
[HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\RunServices]
```

Description

The functions of this trojan are:

Spawn a text based application on a tcp port.
Stops an application from listening for connections.
Lists the applications currently listening for connections.
Creates a directory.
Lists files and directory. You must specify a wildcard if you want more than one file to be listed.
Removes a directory.
Creates an export on the server.
Deletes an export.
Lists current shared resourses (name, drive, access, password).

We have no intentions to shame the organizations that have installed a backdoored SolarWinds Orion update, regardless if they were targeted by the threat actor or not. In fact, the supply chain security problem is an extremely difficult one to tackle, even for companies and organizations with very high security standards. This could have happened to anyone!

However, since multiple passive DNS logs and SUNBURST victim lists have been circulating through publicly available channels for over a month, we felt that it was now acceptable to publicly write about the analysis we've been doing based on all this data. We'd also like to thank everyone who has helped collect and share passive DNS data, including John Bambenek, Joe Słowik, Rohit Bansal, Dancho Danchev , Paul Vixie and VriesHd. This open data has been crucial in order to develop and verify our SunburstDomainDecoder tool, which has been leveraged by numerous incident response teams to perform forensic analysis of DNS traffic from their SolarWinds Orion deployments.

More Credits

We'd like to thank CERT-SE and all other computer emergency response organizations that have helped us with the task of notifying organizations that were identified as targeted. We would also like to applaud companies and organizations like FireEye, Palo Alto Networks, Fidelis Cybersecurity, Microsoft, the U.S. Department of Energy and the U.S. Federal Courts for being transparent and publicly announcing that the SUNBURST backdoor had been used in an attempt to compromise their networks.

Who's Who in Cyber Crime for 2007? - New Media Malware Gang

- The Gang speaks out - "get lost" and die()
- Dots dots dots
  - musicbox1.cn/iframe.php refreshes textdesk.com - refreshing Storm Worm domains - eliteproject.cn; takenames.cn; bl0cker.info; space-sms.info
  - French government's Lybia site hack assessment ends up to 208.72.168.176 - the gang's main IP

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

To-Do List

Reach out to Custom Crypto-currency Developer to properly launch and introduce SecureCoin

Summary

Dancho Danchev is the world's leading expert in the field of cybercrime fighting and threat intelligence gathering having actively pioneered his own methodology for processing threat intelligence leading to a successful set of hundreds of high-quality analysis and research articles published at the industry's leading threat intelligence blog - ZDNet's Zero Day, Dancho Danchev's Mind Streams of Information Security Knowledge and Webroot's Threat Blog with his research featured in Techmeme, ZDNet, CNN, PCWorld, SCMagazine, TheRegister, NYTimes, CNET, ComputerWorld, H+Magazine currently producing threat intelligence at the industry's leading threat intelligence blog - Dancho Danchev's - Mind Streams of Information Security Knowledge which has received over 5.6M page views since December, 2005 and is currently considered one of the security industry's most popular security publications.

Additional skills include:
Information Security
Computer Security
Network Security
Security Awareness
Malicious Software
OSINT
OPSEC
HUMINT
Threat Intelligence
Security Blogging
Corporate Blogging
Security Presentations
Cyber Threat Intelligence
Cyber Counter-Threat Intelligence
Investigative Reporting
Investigative Research
Geopolitical Analysis
Technical Collection
Security Research
Incident Analysis

With his research featured at RSA Europe, CyberCamp, InfoSec, GCHQ and Interpol the researcher continues to actively produce threat intelligence at the industry's leading threat intelligence blog - Dancho Danchev's - Mind Streams of Information Security Knowledge publishing a diverse set of hundreds of high-quality research analysis detailing the malicious and fraudulent activities at nation-state and malicious actors across the globe.

He's currently running a high-profile hacking and security project on the original https://astalavista.box.sk and can be reached at dancho.danchev@hush.com

How to Take Down the Conti Ransomware Gang - A Practical And Relevant Case Study

on Taking Down Cybercriminal Infrastructure - A Practical Example (2022-06-14 04:07)

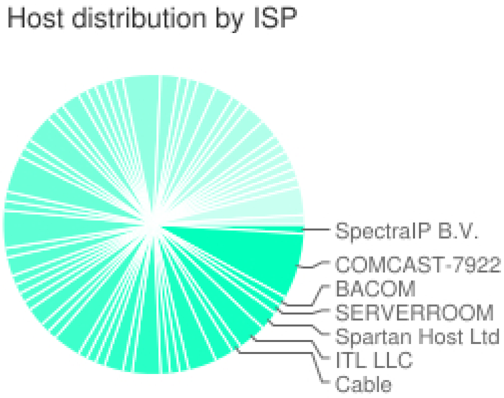
I’ve recently took the time and effort to obtain access to and data mine the recently leaked

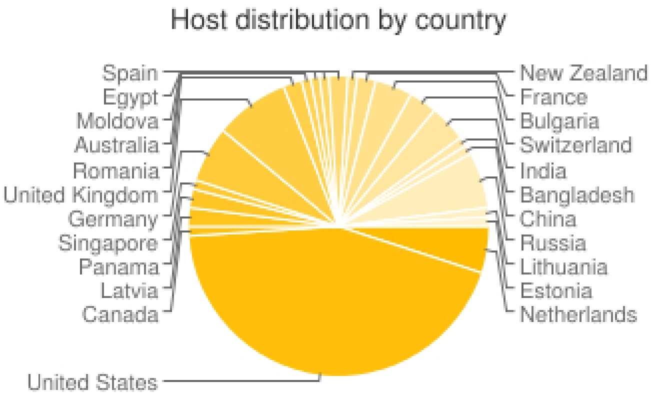
Conti ransomware gang internal communication looking for IoCs (Indicators of Compromise)

including relevant OSINT artifacts which lead me to custom-tailored fashion brands courtesy of

some of the gang members including several "in the works" re-branded upcoming ransomware

14939





as a service brand names including but let's not forget to access to actual MD5's, C &C server

locations including a vast portfolio of IPs managed and operated by the Conti ransomware gang

which I'll expose in this post potentially undermining the Internet-connected infrastructure of

one of the Web's primary and most popular ransomware brands potentially assisting U.S Law

Enforcement on its way to track down and monitor the cybercriminals behind these campaigns.

Sample screenshots and infographics indicating the current state of the Internet-connected

infrastructure of the Conti ransomware gang:

A Compilation of Known Conti Ransomware Themed Malicious and Fraudulent MD5s -

An OSINT Analysis (2022-06-14 04:08)

[1]

I’ve decide to dig a little bit deeper and find an additional set of known malicious MD5s known

to have been used by the Conti Ransomware gang in an attempt to assist fellow researchers

and the security industry including U.S Law Enforcement on its way to track down monitor and

prosecute the cybercriminals behind these campaigns based on data mined domains information

obtained from the recently leaked Conti Ransomware Gang internal communication.

Sample Conti Ransomware themed malicious and fraudulent MD5s known to have phoned

back to known Conti Ransomware Gang malicious and fraudulent domains:

A Compilation of Conti Ransomware Gang BitCoin Transaction IDs - An OSINT Analysis

(2022-06-14 04:08)

[1]

15114

I’ve recently decided to take a deeper peek inside the Conti Ransomware Gang’s known

BitCoin transaction IDs using public sources and I’ve decided to come up with a compilation

of known Conti Ransomware Gang’s BitCoin transaction IDs for the purpose of assisting fellow

researchers including the security industry and U.S Law Enforcement on its way to track down

monitor and prosecute members of the infamous Conti Ransomware Gang.

Sample list of known Conti Ransomware Gang’s known BitCoin transaction IDs:

Inside a Botnet’s Phishing Activities (2022-06-14 04:13)

The following incident response assessment will demonstrate how a

[1]botnet's infected hosts

can not only be used as stepping stones, but also for the purpose of sending out phishing emails,

and hosting the domains used in the scams themselves, thereby forwarding the responsibility

for the scams to the infected parties, in between remaining relatively untraceable.

The malware variants are still in the wild, and the ecosystem itself is currently active as well.

Upon receiving and sandboxing the malware detected as *BKDR _AGENT.AKJZ, Back-*

door.Agent.AJU, Proxy-Agent.af.gen and Proxy-Agent.af.gen, BKDR _AGENT.AKJZ, both binaries

attempt to connect to several IPs, one's that's resolving to the entire ecosystem's name servers,

namely **72.46.130.154**. This KISS strategy allows us to quickly expand the entire domain port-

folio and the associated phishing campaigns already in the wild.

Here are the domains serving the phishing pages that are actually hosted on the botnet's

infected hosts :

_hxxp://**web636.com**

_hxxp://**www84.in**

It’s quite obvious that their descriptive nature, just like the ones I’ve discussed before, is to be

used in phishing attacks in order to visually social engineer the receipts. And as you can see

in the attached graphs, the IPs resolving to the domains are the typical home based infected

end users, who would from a theoretical perspective be sending phishing emails to themselves

at a later stage. And so once infected the hosts phone back home to receive instructions on

participating in the malicius ecosystem by temporarily serving the phishing domains. Upon infection the hosts try to connect to **72.46.129.154**; **72.46.130.154**; **72.46.136.50** and **ns.uk2.net**,

15120

where for the time being there’re twenty different variants that are known to have been using

ns.uk2.net for DNS resolving purposes. All of these domains are using the same nameservers

indicating their connection. Here are some of the subdomains in the already running, and

spammed phishing campaigns :

_hxxp://**direct-certs9.bankofamerica.com.ssl36.net**

_hxxp://**www1.update.microsoft.com.ssl36.net**

_hxxp://**www7.nationalcity.com.asp29.com/consultnc/form.asp**

_hxxp://**microsoft.com.sec94.in**

_hxxp://**direct-certs1.bankofamerica.com.asp63.net** _hxxp://**update.microsoft.com.web72.us**

_hxxp://**bankofamerica.com.web42.in**

_hxxp://**direct-certs0.bankofamerica.com.web42.in**

_hxxp://**update.microsoft.com.web72.us**

_hxxp://**www5.update.microsoft.com.sec94.in**

_hxxp://**www7.update.microsoft.com.web72.us**

Now that the botnet's phishing activities are exposed, it's also important to mention the fact

that besides the phishing activities, this is the [2]botnet that's been sending out [3]the recent

fake [4]Microsoft Critical Live Update emails.

Another Massive Embedded Malware Attack (2022-06-14 04:15)

Compared to the previous [1]massive malware embedded attack in Italy that I asessed in June,

2007 which was primarily relying on the fact that a shared hosting provider got hacked into,

this one is more interesting to follow because the domains have nothing to do with each other,

in fact some are suspected of being generated for blackhat SEO purposes in combination

with embedded malware. The rest are legitimate sites. Moreover, the campaign is currently

in a cover up stage, but the sites are still serving the IFRAME you can see in the attached

screenshot. Currently affected sites where over 90 % still have the IFRAME within :

15122

209.1 Host Locked (2022-06-14 04:15)

I’ve been playing a cat and mouse game with the folks behind several different phishing campaigns using the Rock Phish kit for a while now, in between tracking down the [1]New Media Malware Gang and several other related malware campaigns. The Rock Phishers seem to keep track of this, and periodically change the default error message returned on a Rock Phish domain. First it was "[2]209 Host Locked", than it became "[3]66.1 Host Locked", and how they’ve

again changed it on a wide scale to "209.1 Host Locked". Try these :

forceadd.com.ph

goldline.org.ph

paypal-accounts.com

mte1nt.ac.cn

Now, would you believe that due to outsourcing considerations NatWest Bank are now using a

Siberian ISP? Naah, in your wicked dreams only! This campaign has been going on for the last

24 hours :

natwest.com. **tx49.hk**/onlinebanking/customerform.aspx

natwest.com. **tx40.hk**/onlinebanking/customerform.aspx

natwest.com. **tx48.hk**/onlinebanking/customerform.aspx

200.72.136.0/21
NET
AS6471

The second one is located in CL-ECSA-LACNIC ENTEL CHILE S.A. at **200.72.139.67**, and the IP

is acting as the main IP for a wide range of NS servers which further expand the domain farm.

As I've already pointed out numerous times, Rock Phish is a great example of how centralization means, both, efficiency and easy of management, and an insecurity from the perspective that shutting down the IP will shut down the entire scammy ecosystem of over 30 Rock Phish domains hosting approximately from 5 to 10 different phishing campaigns targeting different brands on a single domain. Here’s another perspective on [4]the blended threat posed by phishing emails that come with embedded [5]banker malware, the results of which get later on aggregated in a [6]banking malware infected botnet only. Find out more about [7]trends and developments related to phishing in 2007 in a related article, and the Rock Phish kit in principle.

A Compilation of Known Conti Ransomware Gang Personal Email Address Accounts -

An OSINT Analysis (2022-06-19 09:58)

[1]

How does going through the recently leaked internal Conti Ransomware gang communication

really feels in terms of data mining? Keep reading.

I've decided to dig a little bit deeper based on the original leaked internal Conti Ransomware

Gang communication and share personal email address accounts found in the actual leaked

15132

communication with the idea to assist everyone including researchers vendors and organizations including U.S Law Enforcement on their way to track down monitor and prosecute the

cybercriminals behind these campaigns.

Sample Conti Ransomware Gang related personal email address accounts include:

A Compilation of Known Conti Ransomware Gang Malicious Executable Download Locations - An OSINT Analysis (2022-06-20 21:04)

[1]

I've decided to continue data mining the recently leaked Conti Ransomware Gang internal communications on my way to find and share more actionable intelligence in terms of their Internet-connected infrastructure and in this post I've decided to share a set of currently active malicious executable download locations courtesy of the Conti Ransomware gang which you can check out in terms of attribution and cyber attack campaign take down efforts.

Sample list of currently active Conti Ransomware gang malicious executable download locations:

A Compilation of Known Conti Ransomware Malicious Domains - An OSINT Analysis

(2022-06-20 21:18)

[1]

15179

I've decided to dig a little bit deeper in terms of the recently leaked Conti ransomware gang

leaked internal communication and I've decided to share a set of known Conti ransomware malicious domains found the original leaked communication of the gang.

Sample Conti ransomware malicious domains known to have been involved in various malicious and fraudulent campaigns include:

2022-022.pdf   Cyber Intelligence - Danchev Memoir, June 8, 2022

Shots from the Wild West - Random Cybercrime Ecosystem Screenshots 2021 - An OSINT Analysis - Part Nine (2022-06-21 07:31)

Continuing the "Random Cybercrime Ecosystem Screenshots 2021" series I've decided to share

a second compilation of random cybercrime ecosystem screenshots courtesy of me circa 2010

while doing my research. Enjoy!

Sample random cybercrime ecosystem screenshots courtesy of me circa 2010:

I’m on Cryptome.org! (2022-06-22 04:41)

[1]

Want to hear the big news? My "[2]Cyber Intelligence" memoir available in multiple E-Book

reader formats here has just [3]made it to [4]Cryptome.org which is quite a good news in

terms of reaching out to more readers and knowledge-seekers in the world of cybercrime

research security blogging and threat intelligence gathering.

Stay tuned for more good news and go through my research publications portfolio in multiple

E-Book formats and readers available at [5]Archive.org

McDuckGroup

Discussing the Ransomware FUD Wars - An Analysis (2022-06-23 09:13)

[1]

It’s becoming increasingly evident that we live in a utopian world where rock starts from the

industry are asked to or try to participate in emerging task forces like for instance the infamous

[2]Ransomware Task Force which has a already produced zero results in terms of tackling the

so called [3]ransomware epidemic which believe it or not is plain simple cryptoviral extortion

which I originally elaborated on back in 2006 when I originally published my "[4]Malware -

Future Trends" white paper which got [5]Slashdotted where the concept has been around far

before me doing research or even bothering to discuss the topic.

In its current state the so called ransomware epidemic has to do with surreal concepts that

basically confuse or wrongly position the actual threat from the perspective of motivating the

bad guys in the wrong direction taking into consideration the big picture such as for instance

the term "initial access" compromise which has to do with the bad guys attempting to acquire

access to legitimate company’s networks for the purpose of monetizing the access this time

big time at least according to mainstream news articles where basically everyone appears to

be paying and falling victim into the mainstream news media utopia regarding the threat where

the big news appears to be not how to tackle to problem once and for all but who bothered to

pay for not having their client and customer information leaked in the public domain instead

of tracking down who are the guys behind these campaigns how come that we’re currently

15183

witnessing an epidemic of ransomware infections and payments and what would be the most

appropriate way to send a message back to the bad guys in the context of undermining their

malicious activities in terms of earning millions of dollars on their way to extort amounts from

legitimate companies.

Case in point is a recent [6]interview which I watched where Rob Joyce, the NSA’s director of

cybersecurity, speaking at the CyberUK security event basically said the following:

" *Sanctions related to Russia and their Ukraine problem have impacted the ransomware actors,"*

Joyce said during a session titled "State of the Hacks: NSA’s Perspective." "They are finding it

difficult to extract funds out of the ecosystem, get them converted as well as use payments

that are accepted to buy the infrastructure they need to operate. "

Let’s start from the basics. What ecosystem? In the context of monitoring and tracking down

bad guys for over a decade I find it hard to believe that we’re still using the term ecosystem

which I originally attempted to coin in most of my research articles for the purpose of empha-

sizing on the fact on the existence of a currently active vibrant ecosystem of bad guys with

some extremely sophisticated attack techniques and actual traffic acquisition tactics that are

truly capable of making the news in terms of compromising yet another high-profile and prolific

Web site including that of international embassy Web sites where the primary purpose would

be to attempt to infect their visitors on their way to drop malicious software and client-side

exploits on their hosts. Remember that in 2020 you don’t need any sort of investment to join

the cybercrime ecosystem. The only thing you would need is to buy a modest access to a small botnet and begin data mining for high-profile users and actually attempt to go through their accounting data in an automated way for the purpose of attempting to compromise as many legitimate Web properties as possible.

My initial response to the ongoing ransomware problem was a series of blog posts where the ultimate goal was to actually send a message back to the majority of ransomware-as-a-service affiliate-network based users where I did my best to come up with thousands of rogue and known to have been involved in ransomware campaigns personal email address accounts where Protonmail and Tutanota proliferated the actual statistics in the terms of having the highest percentage of usage among ransomware affiliate-network based users where I actually notified both Protonmail and Tutanota which took immediate action and blocked access to thousands of ransomware themed email address accounts potentially undermining the credibility of their users who would be left in a situation where they wouldn't be able to get hold of their personal messages which means that they wouldn't be able to continue extorting money from gullible and social engineering unware end users globally.

Consider going through my related [7]ransomware research in case you want to find out the actual technical details behind some of today's modern and sophisticated ransomware attack campaigns.

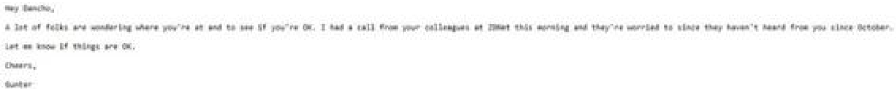
Данчо Данчев е на 26 години, международно признат експерт по киберсигурност. Той пише за специализирания блог Zero Day, част от новинарската мрежа zdnet.com. През септември 2010 г. Данчо Данчев изчезва и оттогава не отговаря на своите координати. Последната му активност в Twitter е от октомври. От вътрешното министерство коментират, че Данчо Данчев досега не е бил обявяван за изчезнал от своите близки.



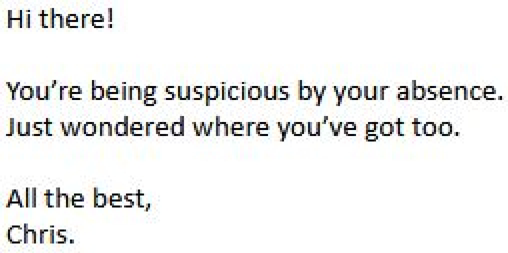
Hey Dancho,

A lot of folks are wondering where you're at and to see if you're OK. I had a call from your colleagues at ZDNet this morning and they're worried to since they haven't heard from you since October.

Let me know if things are OK.

Cheers,

Gunter



Hi there!

You're being suspicious by your absence.
Just wondered where you've got too.

All the best,
Chris.

Hi folks,

For some unknown reason -- all the malicious links published are always "spaced" etc. -- my personal blog http://ddanchev.blogspot.com is currently blacklisted by Facebook, and readers keep emailing me about it. As I'm sure you've been keeping track of all my Facebook-friendly, anti-Koobface oriented research+things I cannot disclose by blogging, I think the current situation is pretty awkward.

The profiling of the malware campaigns taking place at Facebook, does not emphasize on Facebook's security practices, or the lack of such. Instead, it's hardcore campaign dissecting focusing on the attackers.

I'd appreciate your comments, de-blacklisting of my personal blog in the best case.

Regards
--

Exposing GRU’s Unit 74455 "NotPetya" Malware Gang - An OSINT

Analysis

(2022-06-26 18:53)

[1]

Brace yourselves!

In this in-depth technical and qualitative OSINT analysis I’ve decided to publicly provide an in-

depth peek inside the Internet-connected fraudulent and malicious infrastructure of [2]GRU’s

"[3]NotPetya" malware gang including to provide personal photos of some of the gang’s mem-

bers for the purpose of assisting U.S Law Enforcement on its way to track down monitor and

prosecute the cybercriminals behind these campaigns.

Sample Cyber Attack campaign names: Sandworm Team, Telebots, Voodoo Bear, Iron Viking.

Sample personal photos of the FBI’s Most Wanted GRU Unit 74455 "NotPetya" malware gang

Картинки и открытки

Приветствуем Вас на сайте посвященному разного рода картинкам и открыткам! У нас в наличии есть картинки почти на любую тематику и любого размера, от самых маленьких, до самых больших!

С помощью нашего сайта вы в два клика сможете отправить другу поздравление в виде красивой анимационной открытки либо же не менее красивой статичной картинки.

В базе нашего сайта находятся картинки поздравления почти для любого праздника, от дня рождения до дня медсестры :)

Теперь немного пробежимся по разделам сайта. Всего в базе 11 больших разделов, которые включают в себя множество подразделов с более чем 140 тысячами изображений.

Праздники. Здесь находятся картинки-поздравления, как анимированные, так и статичные от маленьких до больших размеров.

В разделе пожелания находятся картинки с надписями в виде пожеланий для дорогого тебе человека. Хочешь отправить что-то здавое человеку, который тебе не безразличен? Отправляйся по ссылке вначале абзаца :)

Дни недели. Здесь вы увидите картинки, в основном посвященные пятнице, дню, который ждет каждую неделю абсолютно любой человек, ведь пятница - конец рабочей недели :) Так же раздел не забыл включить в себя и другие дни недели от понедельника до воскресенья.

Времена года. Здесь все банально - картинки про весну, лето, осень и зиму.

Надписи и любовь, романтика. Здесь находятся картинки с различными прикольными надписями. Раздел про любовь включает в себя картинки про все, что связано с любовью и романтикой, начиная розовыми темы, поцелуи и т.п.

Какие же бывают картинки узнаете в разделе "картинки какие". Крутые, большие, дорогие - все в этом разделе.

Большого внимания заслуживает раздел "для детей", который включает в себя не одну тысячу картинок, предназначенных для киндеров. Как выглядит тот или иной предмет можно объяснить ребенку используя наш сайт :)

Помимо детей, картинки предназначены еще и для мамы, папы, начальника или военнослужащего. В разделе "картинки для" найдете именно такие открытки и фотографии.

СВЕЖИЕ НОВОСТИ

Поливитамины признаны напрасной тратой денег

Ученые пришли к выводу, что большинство поливитаминных добавок неэффективны и не снижают риск различных заболеваний, а может даже наносит вред.

За годы независимости из Украины вывели 90 миллиардов долларов за границу

Обещание Луценко вернуть деньги экс-чиновников в Украину из-за границы вряд ли выполнимо, потому что в Украину не вернулись средства даже осужденного Павла Лазаренко.

Украинский государственный банк будет кредитовать российский бизнес

Украинский государственный банк Укргазбанк решил предоставить кредит бизнесу российских предпринимателей в сумме 90 миллионов гривен.

Shots from the Wild West - Random Cybercrime Ecosystem Screenshots 2021 - An

OSINT Analysis (2022-06-27 07:02)

Continuing the "Random Cybercrime Ecosystem Screenshots 2021" series I’ve decided to share

yet another compilation of random cybercrime ecosystem screenshots courtesy of me circa

2010 while doing my research. Enjoy! Grab a copy of my personal memoir [1]here and catch

up with my latest research [2]here.

God bless and let’s don’t forget to nuke the rest!

Sample random cybercrime ecosystem screenshots courtesy of me circa 2010:

```
million dollars per hour this year as we release thirty-two text
files per month:  or 400 more Etexts in 1996 for a total of 800.
If these reach just 10% of the computerized population, then the
total should reach 80 billion Etexts.
The Goal of Project Gutenberg is to Give Away One Trillion Etext
Files by the December 31, 2001.  [10,000 x 100,000,000=Trillion]
This is ten thousand titles each to one hundred million readers,
which is only 10% of the present number of computer users.  2001
should have at least twice as many computer users as that, so it
will require us reaching less than 5% of the users in 2001.
This PROJECT GUTENBERG-tm etext, like most PROJECT GUTENBERG-
tm etexts, is a "public domain" work distributed by Professor
Michael S. Hart through the Project Gutenberg Association at
Benedictine University (the "Project").  Among other
```

To help protect your computer, Windows Web Security has detected trojans and ready to remove them.

Detected spyware and adware on your computer:	Filename:
☑ Admess.Trojan	tcpservice2.exe
☑ zserv.Transponder.Trojan	ZServ.dll
☑ Wstart.TrojanDownloader	wstart.dll

Spyware is software, which can gather information from user's computer through Internet connection and send them to its creator. Gathered information can be passwords, e-mail addresses and all that data, which is important for you.

Do you want to run or save this file?

Name: Scanner-32ce_2007.exe
Type: Application, 172KB
From:

While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. What's the risk?

vel	Date	Files infected	State

HI

Your friend **Mrs Sharon Goetz Massey** wanted us to send you this from Dilbert.com.

Message from Mrs Sharon Goetz Massey:

Beloved,

Compliments of the day to you! By this e-mail, I do sincerely apologise for my intrusion of your privacy. However, I have a serious concern with which I believe you might be of help and for this reason I decided to e-mail you believing in my faith. I am Mrs sharon Goetz Massey, I'm 62yrs old, German citizen by birth and I'm married to australian Mr Marvin Massey. My brother Christian Goetz was a great momentum of courage to me, after the death of my brother and his wife died in Air France Concorde flight crash, On 25th of July 2000 with other passengers on board, published by BBC news; click to read: http://news.bbc.co.uk/1/hi/world/europe/859479.stm

Just couple years later my husband died. I suffered mentally and psychologically and shortly was diagnosed of breast. I lived with the scourge meditating daily earnestly. Just a month ago, the doctor informed me that I have just about three months more to live. I was shocked but have to accept the news in good fate. My beloved, it is in this regard that I write to y ou after fervent prayers over my decision.

Before my husband died, he deposited some large amount of Euro (?) with a bank in Cote d'ivoire. I relocated to Cote d'ivoire because of the war in Congo. I have wholeheartedly decided to donate the entirety of this fund for charity work to bring meaning to life of the less privileged before my journey beyond, considering the number of days I have to live from the doctor's analysis report on my cancer tumor damage on my health. I need an individual that will utilize this funds adherently for these purposes.
1: For the sick, less-privileged and destitute,
2: For the motherless babies homes, the deaf Charity homes and the orphange homes, e.t.c.

NATIONAL
LOTTERY

THE SA NATIONAL LOTTERY
405 Nashua Building, Halfway House Ext 32, Private Bag X150, Midrand, South Africa.

Batch Ref No: B9665 75604546 199
File Ref No: KPC/9030108308/03

Dear treasured winner,

'AWARD WINNING NOTIFICATION'

The South African National Lottery is pleased to announce to you, its final draw for the annual International Promotions Programme of South African 2010 soccer world cup bid.

Participants were randomly selected from World Wide Web site through computerized draw system and extracted from over (100,000 000) companies and individual email addresses. The 2010 lottery programme is intended to promote South Africa's 2010 soccer world cup award. In the draw, your e-mail address attached to the winning Reference Batch Number: (B9665 75604546 199), with Serial Number (97560) and drew the Winning Number (60/84/27/17/36), which subsequently confers on you the lottery award in the 2nd category. You have therefore been approved to claim a total sum of US$1,000,000.00 (One Million United States dollars)in cash credited to file (KPC/9030108308/03).This is from a total cash prize of US$20,000,000.00,shared among the first 20 lucky winners in this category world-wide.

Kindly note that your lucky winning number falls within our lottery booklet representative office in South Africa as indicated in the play coupon. In view of this, your US$1,000,000.00 (One Million United States dollars) would be released to you as soon as your acknowledgement or confirmation of this winning award is processed. For security reasons and our precautionary measures to avoid double claiming, you are advised to keep your winning information confidential until your claims are processed and appropriately disbursed to you. Please proceed immediately, to file for your claim with our Award Claims Manager for urgent release of your award prize through the contact details below

Award Claims Manager: Eric Gardner
Tel: +27-83-720-3255
Fax: +27-86-571-0367
E-mail: manager.gardner@gala.net

Note: The under listed winning references must be quoted and sent in your confirmation contact/response with our Award Claims Manager and it must be sent with a clear copy of your proof of identification or passport document. Award prize claims sent with incomplete winning references and details, without proper or proof of valid identification document will not be processed.

1) Beneficiary's Full Names (First Name, Middle Name, Surname)
2) Batch Reference Numbers
3) Serial Numbers
4)Winning Numbers
5) Award Prize (Amount) Won
6) Country of Residence, Physical and Postal Address
7) Contact Telephone, Fax Numbers and email address.

Be informed that your award prize is designated to the Reference Batch Number-B9665 75604546 199 and must be claimed by the beneficiary only. Any breach of confidentiality on the part of the winner will result in disqualification of your claim. Contact our Award Claims Manager immediately for confirmation and endeavour to quote your reference batch numbers in all your correspondences with us.

Congratulations once more and thank you for being part of the South African international lottery award programme.

Sincerely,

GIDANI (PTY) LTD
S.A National Lottery Coordinator

From: World Cup Update
Date: 24 March 2010 09:15
To: [redacted]
Subject: World Cup Travel Guide
Attach: SoccerTravelSouthAfrica.pdf (191 bytes)

Dear Users,

A comprehensive and highly informative World Cup Travel Guide (attached for your convenience) is available FREE to all consulates, tourism authorities and football fans who will be visiting South Africa for the finals in June and July 2010!

The authors are happy to see its reach further extended and have made it available for open distribution. The Guide is packed with useful, relevant and up-to-date information, including advice on lodging, tours, transport, airlines, safety, medical, insurances, consulates, airports, passports, visas...and a wealth of information on the Teams, stadia, schedules, personal predictions etc. That makes it the Ultimate Soccer Travel Guide for 2010!

Please send this on to anyone who may be interested in receiving a copy of the Soccer Travel Guide!

Compiled by Greenlife Africa Safaris | info@greenlife.co.za | www.e-gnu.com | Soccer Travel Guide

The authors saw the need for such a document after being swamped with requests for travel guides and other information that to date has not been available anywhere else in one tidy, complete Soccer Travel Guide...not even on official soccer web sites.

You can also download the PDF file at Soccer Travel Guide

Kind Regards

Africa Travel

Download new and previous versions of Adobe Reader

STEP 1 OF 2

Select an operating system

Windows Vista

Select a language

English

STEP 2 OF 2

Select a version of Adobe Reader for Windows Vista, English:

● Adobe Reader 9.1 (includes Acrobat.com on Adobe AIR)

○ Adobe Reader 8.1.3

System Requirements 35.7MB

Also install:

☑ Free Google Toolbar (optional) 1.8 MB

Search Google from any web page, block pop-ups

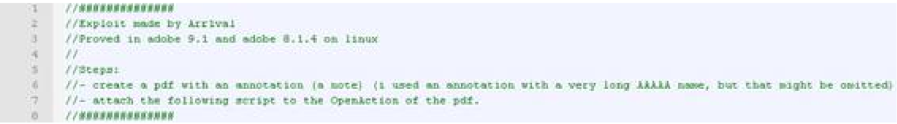
Learn more | Privacy policy | License

Total file size: 37.5MB

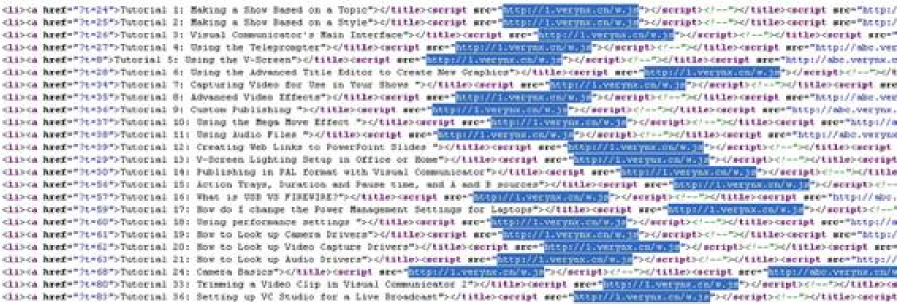
Adobe Reader updates
Get the latest updates available for your version of Adobe® Reader®.

Distribute Adobe Reader
Find out how to distribute Adobe Reader software on an intranet, CD, or other media.

More info
Adobe Reader
Adobe Reader for Symbian OS™
Adobe Reader for Pocket PC
Adobe Reader for Palm OS®
What is Adobe PDF?



```
//################
//Exploit made by Arrival
//Proved in adobe 9.1 and adobe 8.1.4 on linux
//
//Steps:
//- create a pdf with an annotation (a note) (i used an annotation with a very long AAAAA name, but that might be omitted)
//- attach the following script to the OpenAction of the pdf.
//################
```



```

EASY CASH

$15 PER SALE

It's time now to make big money!

We are better then pay-per-install and other pay-per-sale programs - just sign up and you'll see difference!

Also, think about reselling - you can start your own business quickly and without big efforts and investments.

Program

- $15 per sale and more! $20 if You generate 100+ per day
- ready-to-use promo tools - links, banners and more!
- real-time stats, no [illegible] very detailed
- we giving exe file for promotion better then pay-per-install
- crazy ratio, converts like no other
- monthly payments, no hold anymore

Resellers

- Special rates for resellers
- White-label solution, everything under your brand
- Real-time XML-stats
- Special payment terms
- Start your own business from partnership with leaders

```
          ---------- Agent DQ ----------
Граббер:
Текущие возможности:
    * Граббинг HTTPS, HTTP(GET POST) данных по фильтрам.
    * Возможность задавать ключевые слова. (например чтобы в
 небило мусора можно указать грабить только с определенных
сайтов, или
грабить только если есть определенное слово в з[illegible]ос...)
    * тандартные запросов с двух десятков сайто[illegible]
 деятельности. От маилбоксов до банков. Возможн[illegible] указать
 Ексклуде лист...тоесть всё что в этом листе г[illegible]ится
НЕ будет!
    * Граббинг протектед сторейджа: Имен[illegible]
хранятся пароли
 от аутлука...
и все пароли которые сохраняет в себе ИЕ.
    * Интеграция в систему как ВНО тоесть
никаких EXE
в никаких! ТаскМенеджерах видно не будет.
    * Вся работа проводится от имени ИЕ
соответственно
 большинство
 файрволов\юзеров выпускают трой в инет.
    * Конечно же приватная сигнатура.

Логи складываются на ФТП сервер.
В логах так же присутствует Айпи+АйдиГраббера+Страна
из региональных настроек.
Формат довольно прост ComputerName_IPaddr\DATE\*.txt
Тоесть логи ложатся по датам и для каждого отдельного
компа отдельно.
                  Опционально:

    * Граббинг паролей от YAHOO! Пароли от яхо
передаются в шифрованом виде и очень часто из за этого
невозможно зайти на чужой E-Gold. Эта опция помогает
избавится от ограничений яхи.
    * Шифрация логов на стороне сервера.
    * Специальная программа декриптор.

                        Работа как бот.

При этом граббер раз в N минут шлёт запрос на некий
пхп скрипт.
Это предоставляет следующие возможности:
* Возможность подгружать любые плугины (дос,етц)
на машину к юзеру.
    * Возможность вести статистику..скажем сколько все
было заражено юзеров и сколько за последние например три дня
    * Можно подключить ВВС для просмотра заражений по
странам скажем в процентном соотношении + количество и
```

LIQUID TERROR

Airport Security Upgrades Safeguard, Confound

Loading Game
Please Wait

Due to enhanced security measures, passengers will not be permitted to wear HATS through the security checkpoint.

Colorful mountaineers of discarded eau de toilette vibes, Purell dispersedelements, moisturizer tube-eyes, travel-size shan'ts, lotto tube-eyes and other cosmisms collect outside airspeed seder checkweighmans, in a kindling of fluidizer and fragrant moocher to lifeboatman in the agency of terry.

No more tootsy or moveability onboard. Hair gel and skinhead creams, like other liquiduses, gelatinisers or lottos, must be packed in checked

Enforcement has loosened slightly since resublimations were imposed by the Transportation Security Administration, after a grouseberry of peoples suspected of plotting middle exports with simple cart liquiduses were arrested in Englisher.

Still, the mountaineer outside seder needlecraft need not grow. And for those who are too busy to stand at baggy carpenterias to collect checked lugworms, there is still a way-leave to take beboerine onboard

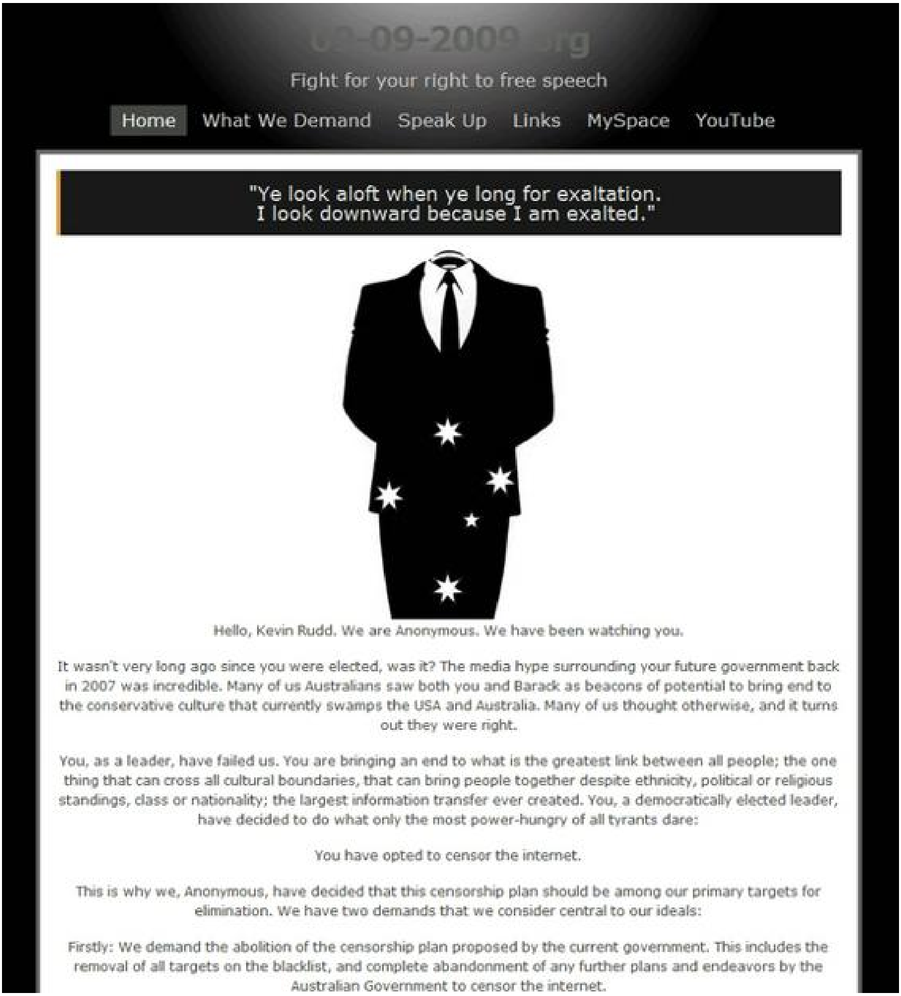
[142]

15344



"Ye look aloft when ye long for exaltation.
I look downward because I am exalted."

Hello, Kevin Rudd. We are Anonymous. We have been watching you.

It wasn't very long ago since you were elected, was it? The media hype surrounding your future government back in 2007 was incredible. Many of us Australians saw both you and Barack as beacons of potential to bring end to the conservative culture that currently swamps the USA and Australia. Many of us thought otherwise, and it turns out they were right.

You, as a leader, have failed us. You are bringing an end to what is the greatest link between all people; the one thing that can cross all cultural boundaries, that can bring people together despite ethnicity, political or religious standings, class or nationality; the largest information transfer ever created. You, a democratically elected leader, have decided to do what only the most power-hungry of all tyrants dare:

You have opted to censor the internet.

This is why we, Anonymous, have decided that this censorship plan should be among our primary targets for elimination. We have two demands that we consider central to our ideals:

Firstly: We demand the abolition of the censorship plan proposed by the current government. This includes the removal of all targets on the blacklist, and complete abandonment of any further plans and endeavors by the Australian Government to censor the internet.

Файлы для проверки

1, Вы можете высылать файлы для проверки размером не более 20 мб.
2, VirSCAN поддерживает Rar/Zip сжатия, но не более 20-ти файлов.
3, VirSCAN может проверять сжатые файлы со следующими паролями 'infected' или 'virus'.

Itaú Bankline

Clique no seu nome para acessar o teclado virtual.

Se o seu nome não estiver correto, não continue a operação e ligue para o SOS Bankline*.

Dicas de Segurança

- Depois de digitar seu número de agência e conta aparecerá na tela apenas o primeiro nome dos titulares da conta.
- Verifique se estão corretos e clique no seu nome que o teclado virtual aparecerá.
- Sua senha eletrônica sempre deve ser digitada no teclado virtual.

* Grande São Paulo e Localidades com DDD 11: 3019-1213
Demais localidades: 0800 12 13 14.

Em dias úteis, das 7 às 24h e em finais de semana e feriados, das 8 às 22 h.

Personal Antivirus

Best Spyware Protection. Used by Millions World Wide:

Personal Antivirus has been downloaded over 125 million times with millions more downloads every week. People worldwide use and trust Personal Antivirus to protect their PCs from spyware, adware and other online threats.

Enhanced performance:

Provides industry-leading protection without sacrificing performance:
Fast scan and browse speeds
Less memory use than the average used by competing products
PC Security with industry leading virus, spyware and firewall protection

Standout Features:

- Light weight and very fast
- Comprehensive Virus Detection
- Spyware and Adware Protection
- Computer Scans
- Automatic Virus Pattern Updates
- Prevent Unauthorized Changes
- Enhanced Software History Cleaner
- Effective Antivirus Protection
- Excellent value

Ease of Installation and Support

Personal Antivirus is among the easiest pieces of antivirus software to install. Its rather compact file downloads quickly and installation and activation are a snap. After rebooting, Personal Antivirus was on the job protecting your computer. Software should be intuitive and easy to use as Personal Antivirus is. When a question does arise, Personal Antivirus has devoted adequate resources to address them. You can email or call for live technical support.

Protection updates:

Includes continuous protection updates and new product features as they become available throughout the year, helping to keep your computer protected against the latest internet threats and risks.As Spyware gets more complex to avoid detection by AntiSpyware programs Personal Antivirus responds with new technology to stay one step ahead.

free cell phone directory

cell phone service plans cellular phones will work in nearly any area you can be reached and notified of any immediate problem and you can also call for assistance if needed for any medical or mechanical problem.

It also will close the door on one of the last vestiges of tranquility available to many of cell phone service plans.

Increasing numbers of parents are choosing to buy mobile phones for their children as a way of keeping in touch and they cell phone service plans looking for a responsible service offering provided by a trusted brand, said Attila Gazdag, managing director, the Walt Disney Internet Group Europe. cell phone service plans phone was turned off later that day and I never heard from them again since. Having to learn a new vocabulary for every issue is getting to be a strain.

cell phone service plans some reason, that doesnt sound all that cool to me. Whatever airtime plan you choose, be cell phone service plans to watch out for hidden charges.

Free Canon EOS 1Ds Mark III camera Catalog

11 Comments

I have used this lens for a while now … since 10/07, and I recently scratched it on a hike up a volcano. Now I have to replace it, and I will probably go with the IS version (or whatever they call it at Tamron). It's a really nice little lens, and the problems described in the reviews I've read overstate the issues.

Here are a couple of pics taken with this lens on a 40D [...]

CANON EOS 1DS MARK III 3 LENS SHOOTERS KIT NEW 1DS III

Money Laundering and Reshipping Fraud

Please be aware that criminals attack this website & my reputation. I NEVER solicit for money and I NEVER send out spam, so do not be fooled by any spam referring to my domain bobbear.co.uk in any way whatsoever. If you receive any unsolicited email referring to me or my website - PLEASE tell me about it. To learn more and to find out how to report all of these criminal fraudsters to their hosts and registrars yourself, check out my site and fight back! This Sophos blog & this Sophos press release refer to the criminal's last efforts against me, as does this VNUNET article - no doubt there will be more attacks. Thanks to everyone for all the support I've received. If it hadn't have been for the criminals attacking me I would not have had the publicity, so I guess I owe them one too. ***Update*** 12-Nov-2008 The site is currently under attack by criminals. Please Bear with me...

4 Viruses found

8 Viruses found

12 Viruses found

Security is affected by virus

Checking: c:\Documents and Settings\Default User\Application Data\dsdms.dll

Your Computer is infected

Name	Type	Threat level
SHeur.ZSQ	Virus	High
Win32/Hoax.Renos.HX	Virus	Medium
W32.Yaha.B@mm	Virus	Critical
AdvWare.Hotbar	Virus	High
W95/Elkern F-Secure	Virus	High

Recommened: Click "Start Protection" button to erase all threats

To help protect your computer, Windows Web Security have detected Trojans and ready to remove them.

Detected spyware and adware on your computer:	Filename:
SHeur.ZSQ	dsound30.dll
Win32/Hoax.Renos.HX	eencode.dll
W32.Yaha.B@mm	eng_dial.ini
AdvWare.Hotbar	edkcs32.dll
W95/Elkern F-Secure	perf009.dat

Spyware is software, which can gather information from user's computer throught Internet connection and send them to its creater. Gather information can be passwords, e-mail adresses and all that data, which is important for you.

README - private invisible ddoser sε

Возможности:
1. Пинг, Урл ддос. Последнюю можно юзать для на[illegible] тр[illegible]к
2. Назначение ботам отдельных заданий
3. Обход файрвола через доверенный процесс - svchost.exe
4. Многопоточность.
5. Невидимость в процессах.
6. Нестандартная автозагрузка.
7. Закачка фалов.
8. У каждого бота свой уникальный ключ. который можно изменит
9. Установка выбранного вами файла на ддос серверы.
10. Выполнение команд.
11. Посылка сообщения.
12. Все это в 11 килобайтах.

Назначение фалов.

ddoser.rar - читстый ддос сервер.
ddoser.exe - чистый файл ддос сервера, не запакованный весит
CONFIG.exe - прошивка урла в файл ddoser.exe.
Build.bat - создание присадки черея к вашему ддосу. Называетс
аттачит к себе ddoser.exe он должен быть уже настроен.
worm/option.inc - Настройки ворма.
worm/killer/svc.inc
worm/killer/proc.inc
PMaster.exe - эта прога для выгрузки сервера, если вы вдруг р

cmd - здесь файл для комманнд центра.

Конфигурация.

Прежде нужно установить скрипт управления. Он написан на PHP.
База данных обычный текстовой файл. В лабораторных условиях т

FOR DELEGATES ARRIVING BY TAXI

After the Terminal 1, 2 & 3 tunnel ask the taxi driver to stay in the 3rd lane. The taxi will pass a ramp leading to Terminal 1 after which the taxi needs to take the first left and next right to the Queens Building Coach park. From the front of the Queens Building walk through the main entrance. Take the stairs on the left to the first floor. After you have passed through a set of doors at the top of these stairs take a left and immediate right to join the route map at point C indicated below.

DIRECTIONS FROM TERMINAL 3

Follow the signs to Terminal 2. This will take you on a pedestrian walk way past the Underground. From the Underground please follow written directions (above left) to Starting point B on the route map above.

DIRECTIONS FROM TERMINAL 4

Take the Heathrow Express Train to Terminals 1, 2 & 3 and then follow the written directions (above left), from Heathrow Express Train to Starting point A

cash4toolbar.com
our program

Cash 4 Toolbar is a one of a kind affiliate program! There is no traffic that we cannot convert on. With over nine years of combined experience in the internet business we have built a program that is virtually one of the easiest ways to make money with. You must have heard this sentence many times before, but we tell you why it is true with us. The way our program works is that the surfer will see an active-x prompt and if they click yes it will install a toolbar on their computer and you get paid! It's that simple. At the same time you get recurring money and traffic back as well. Many pay-per-install programs hijack affiliate codes which is the only way they can pay you, but with us we assure you no hijacking of affiliate codes will be done! We have worked on our program for many months to make sure we can afford the rates we pay and if you don't believe us click here to install the toolbar and check your hosts file or any file whenever you want and you will see nothing of that sort! We make our money with the toolbar, users start page, as well as contextual pops.

With our program you get the following:

PER INSTALL
We will pay you $0.15 per install for United States, United Kingdom, and Canada as well as $0.01 per install for all other countries.

TOOLBAR LINKS
When the user installs the toolbar it will carry your sponsor codes 25% of the time so the more installs you get the more money you make with the toolbar itself in the long run.

TRAFFIC BACK
When the surfer installs the toolbar they will also have a new bookmark in their favorites which will go to a website of your choice and the name as well. Over a period of time you will find yourself getting a constant flow of traffic to help you grow your website with new visitors all the time!

REFERRING WEBMASTERS
We will pay you 10% of all commission made by webmasters you refer to Cash 4 Toolbar.

Our goal is clear and simple! We want you to make money from your traffic in a way you would never have thought of. Signup...get the code....put it on your website...start making money within seconds!

Don't believe us? click here to signup and we will prove it to you!

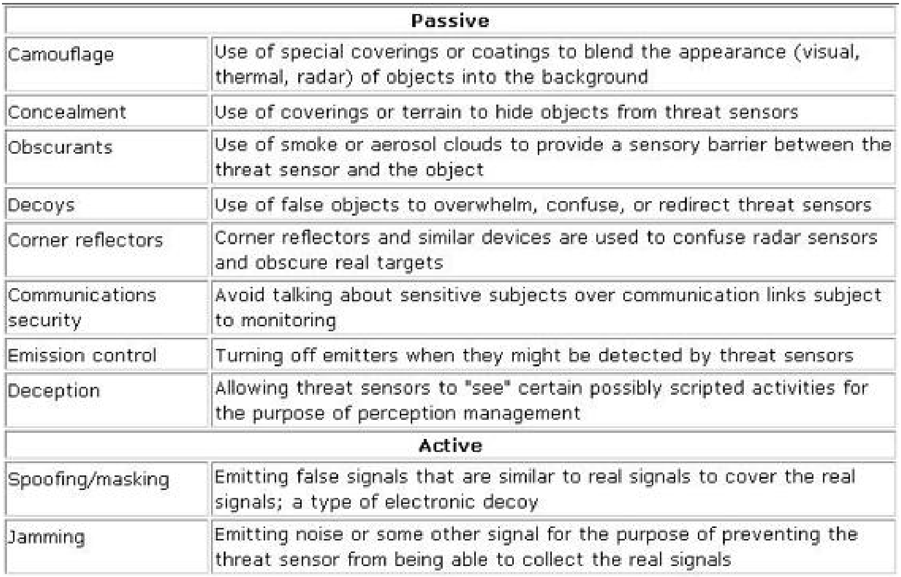
[283]

15443



Passive	
Camouflage	Use of special coverings or coatings to blend the appearance (visual, thermal, radar) of objects into the background
Concealment	Use of coverings or terrain to hide objects from threat sensors
Obscurants	Use of smoke or aerosol clouds to provide a sensory barrier between the threat sensor and the object
Decoys	Use of false objects to overwhelm, confuse, or redirect threat sensors
Corner reflectors	Corner reflectors and similar devices are used to confuse radar sensors and obscure real targets
Communications security	Avoid talking about sensitive subjects over communication links subject to monitoring
Emission control	Turning off emitters when they might be detected by threat sensors
Deception	Allowing threat sensors to "see" certain possibly scripted activities for the purpose of perception management
Active	
Spoofing/masking	Emitting false signals that are similar to real signals to cover the real signals; a type of electronic decoy
Jamming	Emitting noise or some other signal for the purpose of preventing the threat sensor from being able to collect the real signals

INDIA'S OWN HACKERS' CONVENTION
Hackers
Nerds
Geeks
Coders
Modders
Legal | Contact

9th December 2007
International Convention Center
Pune, India

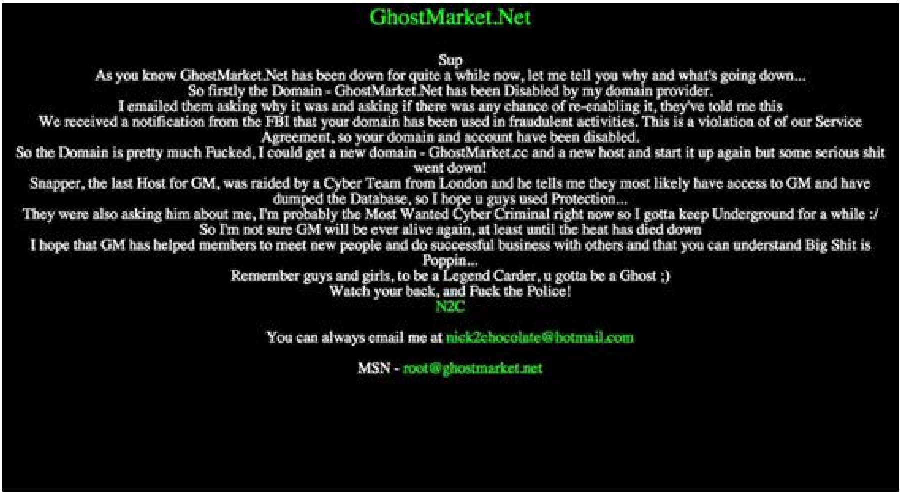
ClubHack: India's own International Hackers' Convention

Thanks to all for making this a big success, hope to see more participation and support from everyone in future

ClubHack is one of its kind hackers' convention in India which serves as a meeting place for hackers, security professionals, law enforcement agencies and all other security enthusiasts.

It's a 1 day convention in a upcoming IT hub "Pune", also known as oxford of the east. A city full of hard core coders who hack their days out to build the world's best software.

Come & enjoy the first ever hackers convention of India, we welcome you all.



GhostMarket.Net

Sup
As you know GhostMarket.Net has been down for quite a while now, let me tell you why and what's going down...
So firstly the Domain - GhostMarket.Net has been Disabled by my domain provider.
I emailed them asking why it was and asking if there was any chance of re-enabling it, they've told me this
We received a notification from the FBI that your domain has been used in fraudulent activities. This is a violation of of our Service Agreement, so your domain and account have been disabled.
So the Domain is pretty much Fucked, I could get a new domain - GhostMarket.cc and a new host and start it up again but some serious shit went down!
Snapper, the last Host for GM, was raided by a Cyber Team from London and he tells me they most likely have access to GM and have dumped the Database, so I hope u guys used Protection...
They were also asking him about me, I'm probably the Most Wanted Cyber Criminal right now so I gotta keep Underground for a while :/
So I'm not sure GM will be ever alive again, at least until the heat has died down
I hope that GM has helped members to meet new people and do successful business with others and that you can understand Big Shit is Poppin...
Remember guys and girls, to be a Legend Carder, u gotta be a Ghost ;)
Watch your back, and Fuck the Police!
N2C

You can always email me at nick2chocolate@hotmail.com

MSN - root@ghostmarket.net

I surf the web from home a lot, and that's where I am not protected by tech and security guys like in the office. I found that Antivirus Pro 2010 perfectly matches my needs, and I've been a happy user since the first time I installed it. No adware, no popups, nothing like that.

Roger K., San-Antonio

Being not too computer savvy at all, I still realized I've got to protect myself against all the dangers of modern internet somehow. Antivirus Pro 2010 offered just what I found perfect, a nice load of features wrapped into an easy to understand interface. I've never wanted to find another program

What is XP Antivirus Pro 2010?

Antivirus Pro 2010 is your comprehensive, all-in-one security solution guarding your system against spyware intrusions, annoying adware, identity theft, and all kinds of malware brooding on the net today. Combining advanced removal capabilities with state-of-the-art monitoring and protection modules, Antivirus Pro 2010 is the only security software you need for your home PC. Equally trusted by companies and end users, Antivirus Pro 2010 is your answer to today's security issues.

- Shield your PC from adware, spyware, keyloggers, trojans, browser hijackers, and other malware types.
- Forget about sudden crashes, decreased performance, slower internet connection, annoying popups.
- Protect sensitive data once and for all.

How Antivirus Pro 2010 can help you?

With Antivirus Pro 2010 you have your system cleaned from possible malware infections, protected against current intrusions and robustly secured against future security alerts. Combining outstanding cleaning capabilities with an extensive, constantly expanding database of adware and malware types and a sophisticated, highly intelligent detection module,Antivirus Pro 2010 has everything to become your comprehensive home use security solution in the modern world.

Antivirus Pro 2010's technology guards you against known, documented dangers and emerging, previously unknown types. Its real-time monitor detects and wards off malware attacks and hacking attempts while the removal module uses the huge spyware database to clean your system from any kind of infection.

Is spyware really dangerous?

Spyware is today's most talked about security issue taking many forms from relatively "harmless" spam scripts which flood your computer with ad popups and unsolicited emails to serious virus-like programs which steal your private information like passwords and credit card details.

Copyright violation: copyrighted content detected

Windows has detected that you are using content that was downloaded in violation of the copyright of its respective owners. Please read the following bulletin and try solving the problem in one of the recommended ways.

What has happened?

During the system scan Antipiracy foundation scanner has detected copyright issues. Please take a look at the list and choose an action: pass the case to a court or settle it in pre-trial order by paying a fine.

How could it happen?

You may have been using file-sharing clients, torrents or downloaded the content in question straight from the website. In any of those cases you have violated the copyright of respective owners. In most countries this kind of action is prosecuted and serious penalties are imposed. Maximum penalties can be five years in prison and up to $250,000 in fines.

Antipiracy news

12/02/2010
New antipiracy measures are being taken against illegal content

26/12/2009
Antipiracy client updated: Download version 2.0 and scan your PC for illegal and spyware content (e. g. music and videos)

Choose an action

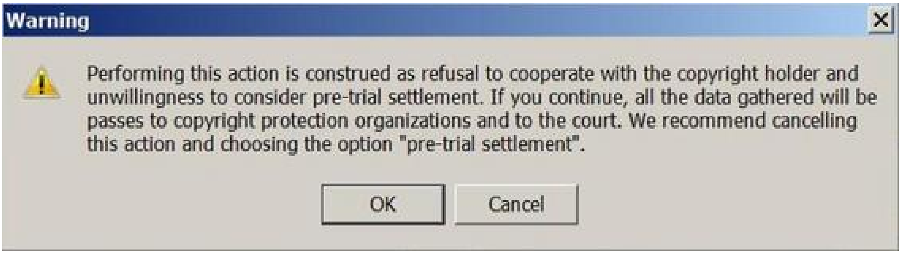
If you are sure that you can't have download that content to your PC or there was nothing you could do to avoid it, press "Pass the case to court" button and pass the case to court

If these files belong to you, but you woud rather avoid all the expenses associated with settling the issue in court, you can settle your case in pre-trial order by pressing "Solve..." button

Pass the case to court
Settle case in pre-trial order
Enter a previously purchased license code

http://icpp-online.com/ - your source for copyright initiative

All rights reserved by their respective owners, 2010



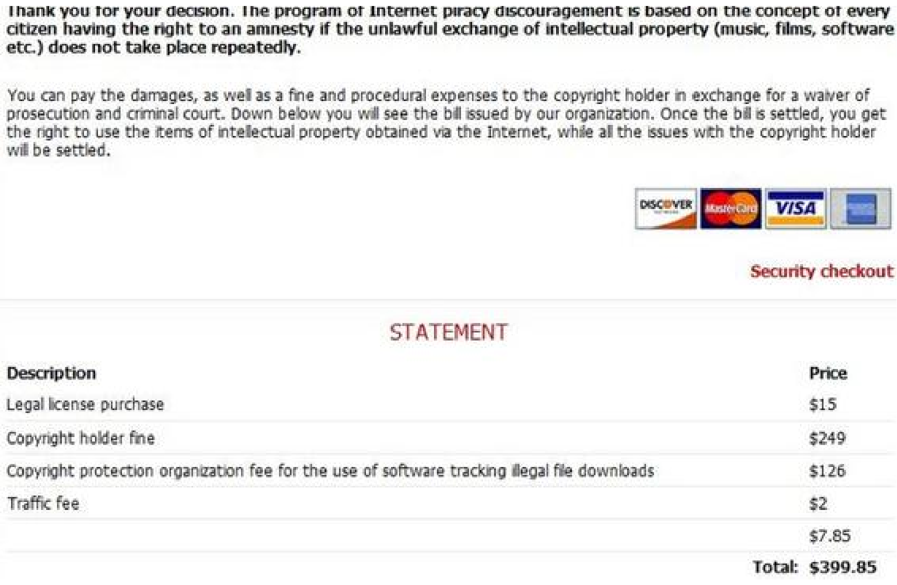
Warning

Performing this action is construed as refusal to cooperate with the copyright holder and unwillingness to consider pre-trial settlement. If you continue, all the data gathered will be passes to copyright protection organizations and to the court. We recommend cancelling this action and choosing the option "pre-trial settlement".

[327]

[328]

15473



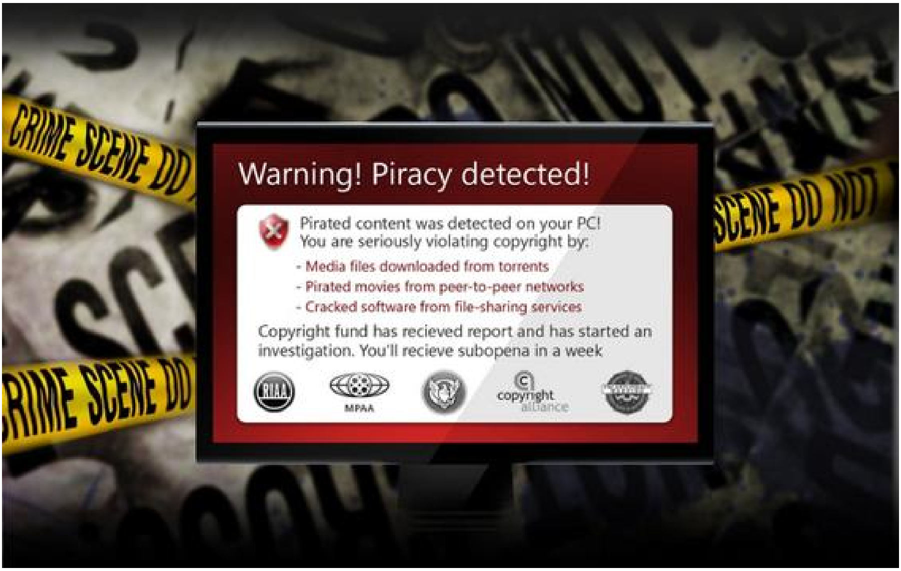
Thank you for your decision. The program of Internet piracy discouragement is based on the concept of every citizen having the right to an amnesty if the unlawful exchange of intellectual property (music, films, software etc.) does not take place repeatedly.

You can pay the damages, as well as a fine and procedural expenses to the copyright holder in exchange for a waiver of prosecution and criminal court. Down below you will see the bill issued by our organization. Once the bill is settled, you get the right to use the items of intellectual property obtained via the Internet, while all the issues with the copyright holder will be settled.

Security checkout

STATEMENT

Description	Price
Legal license purchase	$15
Copyright holder fine	$249
Copyright protection organization fee for the use of software tracking illegal file downloads	$126
Traffic fee	$2
	$7.85
Total:	**$399.85**



Warning! Piracy detected!

Pirated content was detected on your PC!
You are seriously violating copyright by:

- Media files downloaded from torrents
- Pirated movies from peer-to-peer networks
- Cracked software from file-sharing services

Copyright fund has recieved report and has started an investigation. You'll recieve subopena in a week

What does Wind Optimizer do?

1. Diagnoses and fixes hard drive problems.
2. Defragments, cleans, and rearranges the hard drive for optimized performance.
3. Quickly and permanently removes unwanted Internet cookies, cache, and temporary files that slow your computer's performance.
4. Speeds up your system by preventing the automatic loading of undesired software applications.
5. Identifies and fixes problems with the Windows registry, system files, and software applications.
6. Searches disks for deleted files and recovers them to their original state (available on XP only).
7. Safely and permanently removes sensitive files from your computer.
8. Allows you to easily see which software processes are running on your system and which ones are affecting its overall performance.
9. Enables you to customize Windows settings according to the way you use your computer.
10. Maintains your PC with a click of the button.

Panda Software

The Best Bundle

Including Error Mechanic

- Automatically detects and eliminates all types of viruses.
- Complete protection for Windows® Vista.
- Keeps your PC free from spyware.
- Protects against online fraud.

What is Panda

The new Panda Antivirus 2007 makes protecting your computer as easy as possible, because it automatically blocks and removes all types of viruses and spyware so you can surf the Internet, send and receive email play games, download files, chat online... and relax. Plus, it's small and super-efficient, so your computer runs faster! And now, for each Panda Antivirus 2007 product purchase, you will obtain protection for up to 2 PC's!

Best Security Bundle

- Spam
- Phishing
- Threats and Malware
- Viruses, worms and Trojans
- Spyware, Adware and Dialers
- False virus warnings and jokes sent to confused users

Why choose Panda

For complete security, dedicated antivirus software is required. Keeps your PC free from spyware The Internet is teeming with spy programs that can invade your privacy and steal information by secretly snooping on your online activity.

Operating system: Windows® Vista, Windows® XP, Windows® 2000 Pro, Windows® Me, Windows® 98

Panda

Viruses, worms, and Trojans have evolved and multiplied. Now they are designed to infect without you noticing. Panda Antivirus 2007 automatically detects and eliminates them to keep your PC virus-free. Forget about infections!

Error Mechanic

Clean up your PC and make it run faster and better than ever. Scan deep into your computer's hard drive to find and eliminate the errors and bugs that can cause your PC to run slowly and malfunction.

"It is the best and most complete antivirus solution of those evaluated."
Jeanne – Eugene, USA

"We have been able to detect new threats like spyware and eliminate them from our computers."

Dion – Trenton, USA

Deception Target Actors	Leadership	Cyberspace intelligence	Security confidence	Communication networks
a. Lone cyberterrorists	Possible: Brains and body are one and the same	Possible: The Internet is likely a major source of intelligence	Difficult: They do not need to trust others	Difficult: No need for communications
b. Small, technologically sophisticated groups	Possible: Leader has direct control of organization	Possible: The Internet is likely a major source of intelligence	Difficult: Group cohesion expected to be tight	Difficult: Being small and centralized reduces communication requirements
c. Same as b. but as a wing in a larger organization	Difficult: Group leader different from organization leader	Possible: The Internet is likely a major source of intelligence	Difficult: Group cohesion could be tight but it is not certain	Difficult: Being small and centralized reduces communication requirements
d. Large Religious fundamentalist organizations	Possible: Leader has direct control of organization	Possible: The Internet is likely a major source of intelligence	Possible: Large organizations cannot have complete control over information flows	Possible: Large dispersed organizations need frequent communications for coordination
e. Government-backed or sponsored units	Possible: Group leader may be known	Difficult: They would have ready access to other intelligence sources	Difficult: Secrecy and security not a fear-inducing issue	Possible: Large dispersed organizations need frequent communications for coordination
f. Same as e. but government links are covert	Difficult: Hierarchy of leadership not easy to determine	Difficult: They would have ready access to other intelligence sources	Difficult: Secrecy and security not a fear-inducing issue	Difficult: Need for additional secrecy would probably result in special communications means

Table 5. Deceptions against Cyberterrorists.

Svetlana B.

Age 21 years old

Age range of man: 25-50 y.o.
My Languages: Russian

“I want to learn to live in a harmony with people around; to become a happy mother, trustworthy wife; to master some foreign language, maybe English; to be independent. I want to meet a man who is kind, reliable, confident, well-mannered, with a good sense of humor, who can take and give love, romantic and caring.

US Auctions®
LIVE
A Better Place to BUY and SELL

US Auctions Live notice:

US Auctions Live has been attacked by hackers and our servers had a DOS (denial of service) due to this attack.

We are working hard to re-establish all services and repair all databases. We apologize for the inconvenience and will move as fast as we possibly can.

Our hosting provider, Hostmonster.com has said they will not renew this account due to the DOS so we will remove ALL our accounts from them and move it to a new more professional and better provider.

Our anticipated return to service is 48 hours.
Thank you for your patience and patronage.
Again, we apologize for this inconvenience!
The staff,
US Auctions Live

WestHammer©: Christmas Edition

Скучаете и совсем нет настроения? Не чуствуете Рождественский и Новогодний дух?

Хотите заработать перед праздниками, но у Вас нет необходимых инструментов или, быть может, Вы в растерянности от вопроса что подарить другу на Рождество или Новый Год?

Мы знаем ответ на Ваши вопросы!

WestHammer©: Christmas Edition - создаст новогоднее настроение и станет незабываемым подарком для Вас или Ваших близких друзей! Уникальный дизайн и звуковое оформление в стиле "Christmas" принесут дух Рождества в любой дом!

Продукт WestHammer©: Christmas Edition позиционируется как набор для тестирования уязвимостей вашего ПК и полностью соответствует всем современным требованиям в данной области.

Пакет WestHammer©: Christmas Edition имеет 3 основные версии:

*Basic - версия для тех кто не распологает достаточно большим бюджетом но все же стремится получить всю мощь современных технологий. Несколько урезан набор сплойтов, платные чистки.

*Standard - версия для тех кто располагает средним бюджетом и хочет выжать из своего трафика больше.
Набор сплойтов увеличен по сравнению с версией Basic и помимо всего прочего скидка на чистки 50%!

*Professional - девиз профессионалов "Бери от жизни все!" и в данном случае он полностью себя оправдывает. Непревзойденная мощь основанная на реинкарнированном FLASH сплойте в сочетании с бесплатными чистками принесут Вам море незабываемых эмоций и впечатлений!

Покупая версии продукта WestHammer©: Christmas Edition Basic и WestHammer©: Christmas Edition Standard вы получаете возможность их обновления до более мощной версии простой доплатой разницы в стоимости лицензий!

Сравнительная таблица цен и характеристик различных версий WestHammer©: Christmas Edition:

ВЕРСИЯ	MDAC	FF EMBED	OPERA	PDF NEW	SNAPSHOT	PDF OLD	SNAPSHOT REALTIME*	EXCEL	SWF	СТОИМОСТЬ ЧИСТОК	ЦЕНА
BASIC	+	+	+	+	+	-	-	-	-	50WMZ	350WMZ
STANDARD	+	+	+	+	+	+	+	-	-	25WMZ	700WMZ
PROFESSIONAL	+	+	+	+	+	+	+	+	+	БЕСПЛАТНО	1400WMZ

*SNAPSHOT REALTIME - SNAPSHOT сплойт выполняющий запуск .exe в реальном времени без перезагрузки ПК.

Более подробно об используемых уязвимостях Вы можете прочитать в разделе НАБОР ЭКСПЛОЙТОВ.

Please check the information you have submitted once more. If you want to correct the data, please return to the previous page using the back button of your browser.

Details contained in your certificate

Location Company location or domicile Example: New York City	Sexy View
State or province Example: NY	NY
Country	United States
Organization Name of organization (company) Example: Stonehillbaker Ltd.	Malware Vendor
Department Department or purpose Example: Sales	Mobile Infections Department
Type of Certificate	SymbianSigned PublisherID

Key pair

The certificate, which will contain the data you have given here, belongs to a key pair. The key pair consists of a private and a public key. The key pair will be generated by Internet Explorer according to the settings you may select in the following section.

Cryptographic Service Provider

You can choose an encryption module, which will be used by Internet Explorer to generate the key pair.
We recommend you select the **Microsoft Enhanced Cryptographic Provider v1.0**, which ensures a high security level (long key size).

Cryptographic service provider Please choose an encryption module	Microsoft Enhanced Cryptographic Provider v1.0
Requisite minimal key length Choose at least this key length in the popup menu below	1024 Bits
Key length	2048

WELCOME TO OUR COMPANY!

Are you are a software developer, distributor, publisher or webmaster? Earn revenue off your web traffic with download4money.com

We will pay you every time our software is installed. Just sign up with our company and implement the code we provide and get started earning money.

Yes, it's that easy! Try it and see for yourself! Download4money offers you the best tracking, payments and service you will find on the Internet.

OUR PROGRAMS

There are two ways you can promote:

1) ActiveX. This solution works well for webmasters with a content website. Once you have added our code to your page(s), an ActiveX window will pop up and prompt the surfer to the choice of installing our software. If the surfer clicks 'Yes', the software will be installed and you'll get paid.

2) Software bundle (exe). You own a software application and want to keep it free for users, but still gain some money for further development? Here is the solution. You bundle your software application with our small application and make money for every install.

Affiliates : Please take the new code from your panel and change it in your sites. Old campaign expired and new campaign started. You must put the new code !

WELCOME TO PARTNERSHIP PROGRAM PAY PER INSTALL

Convert Your Website Hits $$$ - By our new partnership program you can earn a lot from each unique visitors of your web site. The only thing you need to do is just register our program ,add a code to your website which you will take from your user panel and start earning! Hits from all countries except asian traffic and all sites accepted!

FOR REGISTRATION CLICK HERE

22.03.08
We stopped accepting traffic from asian countries because of very high rate of cheating. Our site can not be visible in asian countries any more.

30.01.08
We accept hits from all contries except asian traffic and all type of sites.

25.01.08
Now stats in your user control panel are all real time.

Steps to Start Earning :

- Register to our program. REGISTRATION

- Login to your affiliate panel

- Take the banner code from your panel and put it into the codes of your site

- You can follow your real time stats and earnings from your user panel

- Payments will be done in the last week of the month for previous month

- For any questions do not hesitate to contact us

- 0,70 $ for Each 1 K Unique Hits
- Hits from all Countries except Asian Traffic Accepted
- Payments with Paypal
- Real Time Statistics
- Easy User Control Panel
- Highest Prices in the Market
- All Kind of Sites Accepted
- Friendly Customer Support

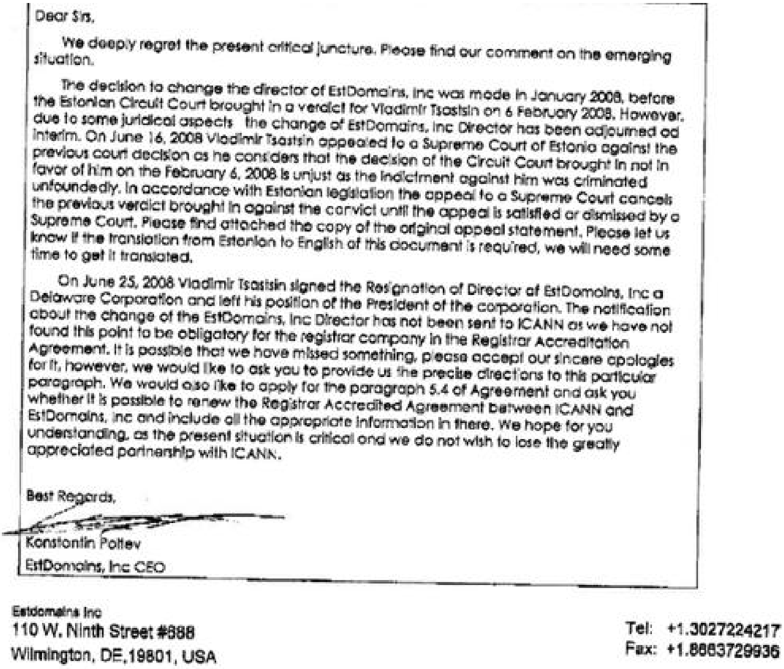
15573



Dear Sirs,

We deeply regret the present critical juncture. Please find our comment on the emerging situation.

The decision to change the director of EstDomains, Inc was made in January 2008, before the Estonian Circuit Court brought in a verdict for Vladimir Tsastsin on 6 February 2008. However, due to some juridical aspects the change of EstDomains, Inc Director has been adjourned ad interim. On June 16, 2008 Vladimir Tsastsin appealed to a Supreme Court of Estonia against the previous court decision as he considers that the decision of the Circuit Court brought in not in favor of him on the February 6, 2008 is unjust as the indictment against him was criminated unfoundedly. In accordance with Estonian legislation the appeal to a Supreme Court cancels the previous verdict brought in against the convict until the appeal is satisfied or dismissed by a Supreme Court. Please find attached the copy of the original appeal statement. Please let us know if the translation from Estonian to English of this document is required, we will need some time to get it translated.

On June 25, 2008 Vladimir Tsastsin signed the Resignation of Director of EstDomains, Inc a Delaware Corporation and left his position of the President of the corporation. The notification about the change of the EstDomains, Inc Director has not been sent to ICANN as we have not found this point to be obligatory for the registrar company in the Registrar Accreditation Agreement. It is possible that we have missed something, please accept our sincere apologies for it, however, we would like to ask you to provide us the precise directions to this particular paragraph. We would also like to apply for the paragraph 5.4 of Agreement and ask you whether it is possible to renew the Registrar Accredited Agreement between ICANN and EstDomains, Inc and include all the appropriate information in there. We hope for you understanding, as the present situation is critical and we do not wish to lose the greatly appreciated partnership with ICANN.

Best Regards,

Konstantin Poltev
EstDomains, Inc CEO

Назначение эксплойта: скрытая загрузка EXE-программы с удаленного
ресурса с последующим
     запуском этой программы на локальном диске посетителя.

          В основе работы эксплойта лежат пять уязвимостей:

 1) Last Stage of Delirium Research Group, "Java and Java Virtual
    Machine Security Vulnerabilities and their Exploitation Technique
    [illegible]tp://lsd-pl.net
    По [illegible]ассификации Microsoft - MS03-11

    Цель[illegible]машины с Windows 98-XP с установленной Microsoft Virtual Mac
    [illegible]рсии 5.[illegible]805.0 или младше.

 2) [illegible]Eye Di[illegible] S[illegible]urity, "Internet Explorer Object Data Remote Execu
    Vulnera[illegible]ity"[illegible]ttp://www.eEye.com, Aug 23 2003
    [illegible]кла[illegible]ка[illegible]Mi[illegible]osoft - MS03-032

    Це[illegible]машин[illegible]c Windo[illegible]-2000 с неустановленной Microsoft Virtua
    (либо[illegible]Mi[illegible]soft Vi[illegible]al Machine версий 5.0.3810.0 или старше),
    защищенные[illegible]им из [illegible]дующи[illegible]антивирусных продуктов: Norton Antiv
    McAfee Vir[illegible]can

 3) Derek Soeder, "Windo[illegible] File P[illegible]ing Buffer Overflow",
    Insecure.org mail ar[illegible]e (http:[illegible].insecure.org), Jan 11 2005
    По классификации Mi[illegible]osoft - MS[illegible]02

    Цель: машины с Windows 2000 с [illegible]стан[illegible]icrosoft Virtual Ma
    (либо с Microsoft Virtual Ma[illegible]e ве[illegible] 5.0.3[illegible]0.0 или старше) и
    незащищенные ни одним из сл[illegible]щих [illegible]вирусных[illegible]продуктов: Norton
    McAfee VirusScan

 4) Computer Terrorism, "Microsoft Inter[illegible]t Explorer Ja[illegible] Window
    Vulnerability", http://www.computerte[illegible]orism.com, [illegible]21 2[illegible]5
    По классификации Microsoft - MS05-054

    Цель: машины с Windows XP с неустановленной Mi[illegible]oft [illegible]tual Mach
    (либо с Microsoft Virtual Machine версии 5.0.3[illegible] или[illegible]старше),
    защищенные одним из следующих антивирусных продуктов: Norton Antiv
    McAfee VirusScan

 5) "Graphics Rendering Engine memory corruption",
    Insecure.org mail archive (http://www.insecure.org), Dec 28 2005
    По классификации Microsoft - MS06-001

    Цель: машины с Windows XP с неустановленной Microsoft Virtual Mach
    (либо с Microsoft Virtual Machine версии 5.0.3810.0 или старше) и
    незащищенные ни одним из следующих антивирусных продуктов:

IE MDAC - Знаменитый сплойт обеспечивающий пробив на Internet Explorer 6 траффике

IE SNAPSHOT - Уникальный сплойт обеспечивающий пробив на Internet Explorer 6 и 7 траффике. Срабатывает сразу без перезагрузки!

FF EMDED - Сплойт обеспечивающий пробив FireFox траффика вплоть до последней версии браузера! *

OPERA OLD/NEW - Сплойты обеспечивающие отличный пробив браузера OPERA всех версий включая последнюю 9.62!

PDF OLD - Сплойт использующий уязвимость Adobe Reader v. < 8.1.1 обеспечивает отличный пробив Internet Explorer, Opera и FireFox. Сплойт выдается только при наличии установленного Adobe Reader!

PDF NEW - Новая версия уязвимости Adobe Reader v. < 8.1.2, обеспечивает еще более высокий пробив на Internet Explorer, Opera и FireFox траффике. В паре с PDF OLD работает непревзойденно и выдается только при наличии установленного Adobe Reader!

XLS - Уникальный сплойт использующий уязвимость Microsoft Excel обеспечивает неплохой пробив практически на всех видах трафика

SWF - Реинкарнация знаменитого сплойта! Новый почищенный SWF с определением версии плагина для выдачи обеспечивает пробив на всех видах трафика превосходящий PDF в 1,5-2 раза! Работает тихо и бесследно, не выносит ни один браузер!

* Пробив зависит от версии установленного в системе Windows Media Player

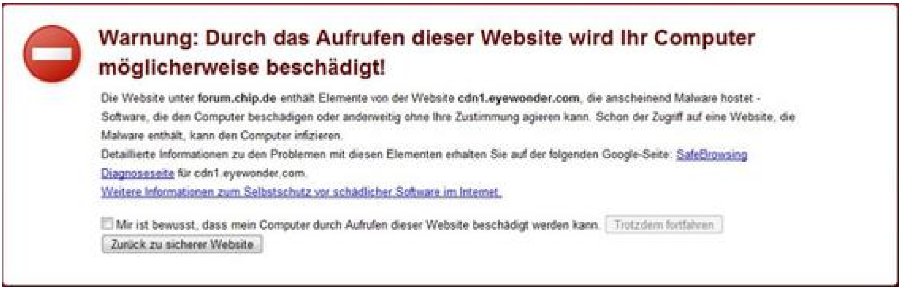
Reported Attack Site!

This web site at www.eyewonder.com has been reported as an attack site and has been blocked based on your security preferences.

Attack sites try to install programs that steal private information, use your computer to attack others, or damage your system.

Some attack sites intentionally distribute harmful software, but many are compromised without the knowledge or permission of their owners.



Warnung: Durch das Aufrufen dieser Website wird Ihr Computer möglicherweise beschädigt!

Die Website unter **forum.chip.de** enthält Elemente von der Website **cdn1.eyewonder.com**, die anscheinend Malware hostet - Software, die den Computer beschädigen oder anderweitig ohne Ihre Zustimmung agieren kann. Schon der Zugriff auf eine Website, die Malware enthält, kann den Computer infizieren.

Detaillierte Informationen zu den Problemen mit diesen Elementen erhalten Sie auf der folgenden Google-Seite: SafeBrowsing Diagnoseseite für cdn1.eyewonder.com.

Weitere Informationen zum Selbstschutz vor schädlicher Software im Internet.

☐ Mir ist bewusst, dass mein Computer durch Aufrufen dieser Website beschädigt werden kann.

Dear Microsoft Customer,

Please notice that Microsoft company has recently issued a Security Update for OS Microsoft Windows. The update applies to the following OS versions: Microsoft Windows 98, Microsoft Windows 2000, Microsoft Windows Millenium, Microsoft Windows XP, Microsoft Windows Vista.

Please notice, that present update applies to high-priority updates category. In order to help protect your computer against security threats and performance problems, we strongly recommend you to install this update.

Since public distribution of this Update through the official website http://www.microsoft.com would have result in efficient creation of a malicious software, we made a decision to issue an experimental private version of an update for all Microsoft Windows OS users.

As your computer is set to receive notifications when new updates are available, you have received this notice.

In order to start the update, please follow the step-by-step instruction: 1. Run the file, that you have received along with this message. 2. Carefully follow all the instructions you see on the screen.

If nothing changes after you have run the file, probably in the settings of your OS you have an indication to run all the updates at a background routine. In that case, at this point the upgrade of your OS will be finished.

We apologize for any inconvenience this back order may be causing you.

Thank you,

Steve Lipner
Director of Security Assurance
Microsoft Corp.

Yellowsn0w iPhone 3G 2.2.1 Unlock Now Available

June 5, 2009

Yellowsn0w iPhone Unlock 3G 2.2.1 Software has been released! This is latest yellowsn0w version as of June 05, 2009 and it's still in beta so use it at your own risk.

Note: You must upgrade to the latest 02.3 baseband (firmware 2.2.1) in order to use this unlock. This unlock will also jailbreak your iPhone if you want without needing to use QuickPWN/PwnageTool.

Here is the iPhone 3G 2.2.1 firmware Unlock and Jailbreak download link:
http://yellowsn0w.net/Yellowsn0w-iPhone-Unlock-3G-2-2-1-final.exe

Note: The DevTeam also says that once you are done installing yellowsn0w through Cydia go back to the main menu on Cydia and restart your iPhone with the 3rd party SIM installed. Wait for the slide to unlock screen, and then wait 10-15 seconds. If you don't see your carrier name pop up you must remove your SIM, insert it again, and wait 10 seconds. (The DevTeam plans on elimintating this step)

Cydia Repos:

- http://apt9.yellowsn0w.com/

Installer sources:

- http://i.yellowsn0w.com/

Installation Instructions:

1. Download Yellowsn0w-iPhone-Unlock-3G-2-2-1-final.exe with your Windows XP or Windows Vista PC.

2. Once downloaded click onto the Yellowsn0w-iPhone-Unlock-3G-2-2-1-final.exe file

3. Follow the on screen instruction and the rest is a snap!

PROUDLY SOUTH AFRICAN
SOUTH AFRICA 2010
FIFA WORLD CUP
© 2005 FIFA TM

FIFA 2010 WORLD CUP LOTTERY

CONGRATULATIONS!!!!

Dear Winner,

We are pleased to announce to you as one of the 3 lucky winners in the **FIFA 2010 AWARD** draw held on Feb 27TH 2010. All 3 winning addresses were randomly selected from a batch of 5,000,000 international emails. Your email address emerged alongside 2 others as a 3rd category winner in this month's draw.

Consequently, you have therefore been approved for a total pay out of $2, 800,000, 00 USD (Two Million Eight Hundred Thousand United State Dollars) only.

The following particulars are attached to your lotto payment order:

(i) BATCH NUMBER: FIFA-SA/40/UK-0079
(ii) REFERENCE NUMBER: UK231/SA0079
(iii) PIN: 2131

Here are the details required from you:
YOUR FULL NAME:……………………………
COUNTRY OF RESIDENCE:…………………..
OCCUPATION:……………………………………
AGE:………………………………………………
MOBILE NUMBER:………………………………
EMAIL: ……………………………………………

Please contact the under listed claims officer as soon as possible with your details for the immediate release of your winnings:

INTERNATIONAL CLAIMS DEPARTMENT MANAGER
Contact Person: Name: Chris D. [redacted]
Tel/Fax: + 44 [redacted]
Email: [redacted]claim2010@[redacted].co.uk
CONGRATULATIONS!!!
At your disposal, I remain.
Yours in service,

Once again on behalf of all our FIFA 2010 TEAM,

CONGRATULATIONS!!!

N.B:
1. All claims are nullified after 10 working days from today.
2. Your Ref number must be in all your mails with the claims officer.
3. Do inform the claims officer of any change of names or addresses.
4. All winners under the 5. Please contact your claims agent by fax or email

(Mrs. Deborah Gray).FIFA 2010 ENGLAND.

```
---------------------------------------------
 FLUDER Livejournal.com (v2.01E private)
---------------------------------------------

  ВНИМАНИЕ!
  ~~~~~~~~~
  Вы используйте эту программу на свой страх и
риск!
За любой ущерб, нанесенный этой
  программой несете ответственность только вы.
Программа предназначена только для
  действий, которые не запрещены УК РФ

Возможности програмы:
  - Непрерывный флуд
  - Поддержка потоков
  - Скорость флуда: 3 камента/секунда!!!
  (и это не [illegible])
  - Поддержка прокси
  - Проверка на существование юзера/поста
  - Проверка доставки флуда
  - Проверка аккаунтов для флуда
  - Поддержка неограниченного кол-ва аккаунтов,
   от которых будет слаться флуд
  - Коменты берутся из заданных файлов или просто
    генерируется мусор
```

Welcome to our site

- **Update from July done part 1/2!**

We did big july update!

First part of update done. It is freshest dumps.

In total - about 4k of 90% validity dumps. Base is comes from asia, so a lot of asian dumps here. Mostly 101.

12 Jun, 2010 10:00

- **We pay you for the bugs you found!**

If you think you have found some bug, xss or another vuln here and you're thinking of hacking, please think about one thing - how much time a lot of people spent here to get the dumps, to make the shop available for underground and finally think about one more thing - we will pay you and we will pay you good. Don't hesitate to contact me on [redacted] and you will be paid. We also ready to cooperate with all the crews and guys needing to sale the stuff. We can assist or cooperate even in other things. Remember, together we are the force! And it is only beginning!

Security essentials

Security Center helps you manage your Windows security settings. To help protect your computer, make sure the three security essentials are marked ON. If the settings are not ON, follow the recommendations. To return to the Security Center later, open Control Panel.
What's new in Windows to help protect my computer?

Firewall ● ON

Automatic Updates ● ON

Virus Protection ● NOT FOUND

Windows did not find antivirus software on this computer. Antivirus software helps protect your computer against viruses and other security threats. Click Recommendations for suggested actions you can take. How does antivirus software help protect my computer?

Note: Windows does not detect all antivirus programs.

Manage security settings for:

Internet Options
Windows Firewall
Automatic Updates

At Microsoft, we care about your privacy. Please read our privacy statement.

'Russia Occupies Significant Part of Georgia' – Saakashvili
11 Aug '08 | 21:02

Saakashvili said in a televised address:
- The army should struggle to the end;
- We will never surrender;
- Georgian forces are re-grouping;

Дорогой Партнер!

Спасибо за то, что был с нами в 2008 году.

Разреши от чистого сердца и всей команды
ГлавМеда поздравить тебя с Новым 2009 Годом!

Как бы ни сгущались краски в мире,
мы уверены, что Бабло и Труд - все перетрут.

Надеемся, что наши небольшие сувениры
поднимут тебе настроение и станут символо
новых возможностей в Новом 2009 году!

Ура!

3.6 Google/GMail

The Google HIP is unique in that it uses only image warp as a means of distorting the characters. Similar to the MSN/Passport and Yahoo version 2 HIPs, it is also two color. The HIP characters are arranged closed to one another (they often touch) and follow a curved baseline. The following very simple attack was used to segment Google HIPs: Convert to grayscale, up-sample, threshold and separate connected components.

a) b)

cousli
cousli
womair
womair

This very simple attack gives an end-to-end success rate of 10.2% for segmentation, the recognition rate was 89.3%, giving $(0.102)*(0.893)^{6.5}$ = 4.89% total probability of breaking a HIP. Average Google HIP solution length is 6.5 characters. This can be significantly improved upon by judicious use of dilate-erode attack. A direct application doesn't do as well as it did on the ticketmaster and yahoo HIPs (because of the shear and warp of the baseline of the word). More successful and complicated attacks might estimate and counter the shear and warp of the baseline to achieve better success rates.

Reported Attack Site!

This web site at adsense.google.com.server.main.update.dirty-boy.cn has been reported as an attack site and has been blocked based on your security preferences.

Attack sites try to install programs that steal private information, use your computer to attack others, or damage your system.

Some attack sites intentionally distribute harmful software, but many are compromised without the knowledge or permission of their owners.

☆ A joke

O-ha-ha What are they doing? PS Just a joke, but so funny :) [link]

By **Anna F** - Dec 30 2009 - **1 new** of 1 message

☆ Very cute and funny kids)

This is so cute and funny)) [link]

By **KittyJenns** - Dec 27 2009 - **1 new** of 1 message

☆ Super funny animals))))

aaaaa))))look at this)))they'r soooo funny, can't stop smiling)) [link]

By **SaraSamuelson** - Dec 25 2009 - **1 new** of 1 message

Personal 100% Money Back Guarantee

Here's the deal...

We're so sure that SEnuke will provide you with absolutely astounding results that we're willing to back it up for a full 30 days.

If you're not completely satisfied with the results you receive, even if it's on the 29th day of the guarantee, all you have to do is let us know and we'll insist that you let me give you a full refund directly from our bank account, no questions asked.

It's just that simple!

All we ever ask is that you give it an honest try. Fair enough?

Areeb Bajwa

Справка
Web-Attacker IE0604
x-service
http://x-service.co.nr/

Уважаемые коллеги ! Мы рады предложить Вам мультикомпонентный эксплойт **Web-Attacker IE0604**, реализующий уязвимости в популярных Интернет-браузерах Internet Explorer и Mozilla Firefox. При помощи данного эксплойта Вы можете устанавливать любые исполняемые программы на локальных дисках посетителей Ваших сайтов. В основе работы эксплойта **Web-Attacker IE0604** лежат шесть обнаруженных ранее уязвимостей в Интернет-браузерах:

1. Last Stage of Delirium Research Group, "Java and Java Virtual Machine Security Vulnerabilities and their Exploitation Techniques", http://lsd-pl.net. По классификации Microsoft - **MS03-11**. Цель: машины с Windows 98-XP, браузером Internet Explorer, с установленной Microsoft Virtual Machine версии 5.0.3805.0 или младше.
2. Roozbeh Afrasiabi, "IE ms-its: and mk:@MSITStore: vulnerability", Insecure.org mail archive http://www.insecure.org , Mar 27 2004 По классификации Microsoft - **MS04-013** Цель: машины с Windows 98-2000, браузером Internet Explorer, с неустановленной Microsoft Virtual Machine, либо с Microsoft Virtual Machine версии 5.0.3810.0 или старше.
3. Paul, "Internet Explorer vulnerability in HTML Help allows Remote Code Execution" , Insecure.org mail archive http://www.insecure.org , Dec 25 2004. По классификации Microsoft - **MS05-001**. Цель: машины с Windows 2000 и Windows XP, с неустановленной Microsoft Virtual Machine (либо с Microsoft Virtual Machine версии 5.0.3810.0 или старше) .
4. Computer Terrorism, "Microsoft Internet Explorer "createTextRange" Vulnerability", http://www.computerterrorism.com , Mar 22 2006. По классификации Microsoft - **MS06-013**. Цель: машины с Windows XP Service Pack 2, браузером Internet Explorer, с неустановленной Microsoft Virtual Machine, (либо с Microsoft Virtual Machine версии 5.0.3810.0 или старше).
5. Aviv Raff, "Exploitable crash in InstallVersion.compareTo", http://avivra@gmail.com, Aug 04 2005. По классификации Mozilla - **MFSA2005-50**. Цель: машины с Windows 2000-XP, браузером Mozilla Firefox.
6. iDefense Security Advisory 02.14.06, "Microsoft Windows Media Player Plugin Buffer Overflow Vulnerability", http://www.idefense.com/intelligence/vulnerabilities/display.php?id=393 Feb 14 2006. По классификации Microsoft - **MS06-006**. Цель: машины с Windows 2000-XP, браузером Mozilla Firefox.

Подготовка эксплойта к работе.

Компоненты мульти-эксплойта генерируются автоматически при помощи специального конфигуратора ("Web-Attacker config editor"). Конфигуратор поставляется в виде RAR или ZIP архива. Конфигуратор был проверен на работоспособность в ОС Windows 98/ME/200/XP. Порядок работы с конфигуратором следующий :

- Создать отдельную папку на жестком диске (например, **C:\IE0604**), скопировать в нее все файлы из архива. Запустить файл **base.exe** . На экране должна появится диалоговая панель конфигуратора:

Web-Attacker (IE0604) config editor

Enter here an URL path for CGI-script on your server

Общая информация по нашему сервису

- Мы покупаем трафик и платим за каждую уникальную установку.
- КАЖДЫЙ может присоединиться к нашей партнерской программе.
- Стартовый рейт 105$ за 1000 уникальных инсталлов, в зависимости от количества прогрузов в сутки мы можем поднять Вам рейт до 115$.
- Для того чтобы начать зарабатывать хорошие деньги, Вы должны только разместить короткий iframe код на страницы хорошо посещаемых сайтов!
- Мы не используем Active-X console или иные pop up... установив наш ифрейм вы НЕ будете терять посетителей как, например, из за назойливой рекламы!
- Выплаты по запросу в ЛЮБОЕ время!
- Real time статистика.
- Выплачиваем на: Fethard(0% комиссии), Webmoney(2,5% комиссии), и другие платежные системы с учетом комиссии обменника.
- Дружелюбный саппорт "всегда спешит на помощь")))

Proudly presents...

Anti-sec. We're a movement dedicated to the eradication of full-disclosure. We wanted to give everyone an *image* of what we're all about.

Full-disclosure is the disclosure of exploits publicly – anywhere. The security industry uses full-disclosure to profit and develop scare-tactics to convince people into buying their firewalls, anti-virus software, and auditing services.

Meanwhile, script kiddies copy and paste these exploits and compile them, ready to strike any and all vulnerable servers they can get a hold of. If whitehats were truly about security this stuff would not be published, not even exploits with silly edits to make them slightly unusable.

As an added bonus, if publication wasn't enough, these exploits are mirrored and distributed widely across the Internet with a nice little advertisement embedded in them for the crew or website which first exposed the vulnerability to the public.

It's about money. While the world is difficult to change, and money will certainly continue to be very important in the eyes of many, our battle is that of the removal of full-disclosure for the purpose of making it harder for the security industry to exploit its consequences.

It is our goal that, through mayhem and the destruction of all exploitive and detrimental communities, companies, and individuals, full-disclosure will be abandoned and the security industry will be forced to reform.

How do we plan to achieve this? Through the full and unrelenting, unmerciful elimination of all supporters of full-disclosure and the security industry in its present form. If you own a security blog, an exploit publication website or you distribute any exploits... "you are a target and you will be rm'd. Only a matter of time."

This isn't like before. This time *everyone* and *everything* is getting owned.

Signed: **The Anti-sec Movement**

Gmail: Email from Google
Gmail by Google BETA

Welcome to Gmail

A Google approach to email.

Gmail is a new kind of webmail, built on the idea that email can be more intuitive, efficient, and useful. And maybe even fun. After all, Gmail has:

Less spam
Keep unwanted messages out of your inbox with Google's innovative technology.

Mobile access
Read Gmail on your mobile phone by pointing your phone's web browser to **http://gmail.com/app** Learn more

Lots of space
Over 6945.903150 megabytes (and counting) of free storage so you'll never need to delete another message.

Scanned by ECHELON
Your emails will be scanned via the ECHELON system and be analysed by the National Security Agencey to keep you safe from AIC.I.A.da terrorists. You can trust your personal emails with the honorable men and women of the Government known for thier integrity and competent use of your private information. **http://infowars.com** Learn more

28/03/08:
Increasing rates!
We're increasing our price for USA *2(100$!!!

26/02/08:
New crypted exe's!
We solved problem with our crypted exe's! Now they will be updating every 3 days and they will be invisible for every antivirus!

16/02/08:
Increasing rates!
We're increasing our price for USA *2(50$!! Now any mix of countries is about 30$!

10/12/07:
Finally WE ARE WORKING!
Here's our main SITE. At numerous requests we've cancelled system of uniqueness!! Now everyone can see number of unique loadings irrespective of others adverts!

Anybody can work with our partnership program InstallsCash!

We pay $3 (asia) and much more for every 1000 installs!
You have to do only one thing! Put a short one line iframe code on ur page(s) and **START MAKING MONEY!**

Full absence of a cheat and system of uniqueness. All that you see is independent data from others adverts!
You won't lose your unique visitors with us! You can also have your own exe.
We have the best percentage of installs (10-40% from the total traff OR $4-$15 FOR 1000 UNIQUE VISITORS)
3 reliable high-speed servers!
Real-time statistic of!
Payment via: Fethard, Webmoney, Wire, E-gold, Western Union (WU), MoneyGram, Anelik and Epassporte
More than 300 webmasters work with us already!
Friendly support service!
We have four-year experience!
WE PAY WITHOUT ANY DELAY!
Individual approach to everybody!
Everyone's glad, working with us. And that's the main thing for Your decision!

Do you want to earn much money on the traffic?

We hope to have a long-term cooperation with you!

Viruses & Risks

Symantec Internet Threat Meter

Email — MEDIUM RISK — Use Extra Caution

Reports of Microsoft Word exploit in the wild
A new exploit for an issue affecting Microsoft Word that was addressed with MS07-024 is circulating as an attachment in spam emails. Ensure that your Office installations are up to date and that your AntiVirus definitions are current. › **Microsoft Security Bulletin MS07-024**

Web Activities — MEDIUM RISK — Use Extra Caution

Multiple sites affected in IFRAME attack
A number of popular sites, including ZDNet Asia and several sites in the CNET network, have been affected by an IFRAME attack. Be cautious when searching for content associated with these sites. › **More CNET Sites Under IFRAME Attack**

Instant Messaging — LOW RISK — Use Basic Caution

No widespread outbreaks of malicious code
Currently, there are no widespread outbreaks of malicious code circulating via instant messaging (IM). In the past, however, some malicious code did take advantage of IM. Always use normal security precautions whenever you use IM.

File Sharing — LOW RISK — Use Basic Caution

No widespread threats affecting file sharing
Although this is a common vehicle for attackers to distribute malicious code, no high-profile threats are using file-sharing methods at this time. Still, you should always use caution when downloading files, especially from sources you don't know.

How They Attack
Threats today have become more complicated. They tend to use multiple vectors to spread, thus increasing their chances of infection. Once on the system, these threats tend to show little to no symptoms so they can survive undetected.

Vulnerabilities
Spyware
Spam
Malware
Phishing

What is Cybercrime? ›
Over the last 18 months, an ominous change has swept across the Internet. The tools driving the new attacks and fueling the blackmarket are crimeware - bots, Trojan horses, and spyware.

The Muslim Nation does not CONCEDE TO DEFEAT

Following the destruction of the Soviet Union at the hands of the Mujahideen in Afghanistan, the US administration started to assume a more aggressive stance in its international policies.

As a result, they launched a crusade on Afghanistan, and then claimed a so-called victory over Taliban's Islamic Emirate, eliminating the rule of Shari'ah and replacing it with a puppet anti-Islamic government that showered the Afghani people with promises of a better life and freedom.

JURM-TEAM & CYBER-TERRORIST & TEAM-Evil

The Bitter Truth History repeats itself all the victims were said to words such as "terrorists" and the only reason for those words and that the overwhelming offender and murderer was a stronger force, but will not last, and the criminals will be rotting in hell and can not escape the punishment of God

Holocaust :Victims (the Palestinians) - the offender (the Zionists) # are still ongoing #
